SUFFRAGE AMENDMENT RATIFIED

TENNESSEE RATIFICATIONISTS WIN AFTER TWO DAYS DEBATE

Equal Rights For Women Becomes Part of Basic Law When House Adopts Resolution

IS 36TH STATE TO RATIFY IT

Women Will Vote an Equality With Men Nov. 4 Unless Amendment is Blocked in Courts

OPEN TO RECONSIDERATION

Speaker Walker Changes Vote to Make This Possible, Final Result Being 50 to 46

(By United Press.)

Nashville, Tenn., Aug. 18.—Woman's suffrage became part of the basic law of the United States today when the Tennessee legislature ratified the Susan B. Anthony constitutional amendment.

The Tennessee house passed the resolution by a vote of 49 to 47, first and Speaker Walker changed his vote in favor of the resolution, making the final vote 50 to 46.

It had already been adopted by the senate.

Tennessee was the 36th state to ratify, thus completing the number required and putting the amendment into the constitution and ending the long fight for equal suffrage.

The victory came after two days of debate.

Women now will be able to vote in the November election on an equality with men unless the amendment is blocked in the courts or a reconsideration changes the results.

The vote in the house came with dramatic suddenness after an ineffectual attempt to table the resolution of ratification had been made.

Speaker Walker moved to table. The vote on this was 48 to 48 and the house was in an uproar because the decision was in doubt. When order was restored, the clerk began to call the roll on the original resolution for ratification. The vote was

DELEGATIONS ARE EXPECTED SUNDAY

People Coming From Many Parts of Indiana For Little Flatrock Church Dedication

NO PREACHING SERVICE HERE

There will be no services at the Main Street Christian church next Sunday, with the exception of Sunday school at 9:30 and a brief communion service afterward, on account of the dedication of the new church by the Little Flatrock Christian congregation, which will take place Sunday.

It is expected that delegations will be present for the dedicatory services from Christian churches all over this section of the state because Little Flatrock is known far and wide in the Christian denomination, due to its healthy growth in spite of the decay which has taken place among the rural churches. The Little Flatrock congregation is especially proud of its ninety years of history, which will be extolled in the services Sunday.

Services Sunday will consist of Sunday school at 9:30 a. m., morning worship at 10:30, a union memorial service in the afternoon at 2:30 and the formal dedication service at 7:30 in the evening. George L. Snively will speak at the morning and evening meetings. The complete program will be printed in the Republican later this week, either Thursday or Friday.

FIRE LOSS OF \$300,000

Blaze in Cabinet Works at South Bend Under Control

(By United Press.)

South Bend, Ind., Aug. 18.—Two firemen were slightly injured and damage estimated at more than \$300,000 was caused today by fire in the sheds in the cabinet works of the Singer Sewing machine company here. The first alarm was sounded at 12:10 a. m. and at 10 o'clock this morning it became apparent it would be late this afternoon before the firemen could cease their efforts.

The fire was under control shortly after daylight but the stacked veneer continued to smoulder and workmen were put to work taking the piles away. Shortly before daylight two firemen were caught by a falling wall but were quickly rescued without serious injury.

TIDE OF BATTLE FAVORS THE POLES

Polish Delegates Who Went to Minsk as Beggars Rapidly Approach Equality With Russians

REDS ARE PRESSED BACKWARD

Polish Armies Assume Offensive Under French Leadership on Whole 500 Mile Front

(By United Press.)

The Polish armistice delegates who went to Minsk almost in the role of beggars for the crumbs of peace from the Russians are rapidly approaching a basis of equality through the unexpected and spectacular victory of their armies.

Officered and directed by the best of the French military strategists, the Poles have assumed the offensive along practically the whole 500 mile battle front.

Although the Bolshevik claim minor successes in isolated sectors, dispatches from neutral as well as Polish sources today showed the soviet forces have been forced backward from 10 to 15 miles at some places. At some points the retreat borders on a rout.

The Russians were still far within the eastern Polish boundary proposed by the treaty of Versailles, except for a small frontage, but the moral advantage in the military situation was believed to be veering definitely towards the Poles. This was due to several factors such as reported depletion of Russian artillery supplies and munitions, the ebbing of the Bolshevik morale and the final ejection of the Russians from the Danzig corridor and the eastern outskirts of Warsaw.

French military experts saw in the present battle a resumption of the old duel of French and German strategy with Gen. Weygand directing the Poles and Gen. Ludendorff the Russians.

POLICE HAVE 3 BICYCLES

Patrolman Pea has three bicycles at police headquarters which belong to Rushville people, and anyone that has lost a bicycle can have theirs if they give the officer a description of it. The bicycles were picked up by the police after being left in the streets, and might have been stolen by someone had they not been taken care of by the officers.

TWO UNDERGO OPERATIONS

Mrs. John Mangold of near Falmouth and Albert Brock, son of Mr. and Mrs. Albert Brock of Clarksburg, underwent operations for the removal of their tonsils at the Dr. Frank H. Green hospital today.

REMOVED TO HER HOME

Mrs. Will Meyer, who recently underwent an operation at the Memorial hospital in Connersville, has been removed to her home near Gings.

DR. F. H. GREEN BUYS DR. MOFFETT PROPERTY

Purchases Old Residence and Site 110 by 165 Feet, at Corner of Third and Perkins

CONSIDERATION IS \$5,000

Dr. Frank H. Green today bought what was known as the Dr. Moffett property, corner of Perkins and Third streets, from William H. Moffett, son and only heir of the late Dr. John Moffett. The consideration was \$5,000.

Dr. Green said that he did not know what he would do with the property and that he had no purpose in buying it, except that he was given the opportunity and took advantage of it.

The lot has a frontage of 110 feet in Perkins street and runs east a distance of 165 feet to the alley in the rear. The old Moffett residence, which has not been inhabited for years, still stands on the lot. There is also a small office facing Third street and a plumbing shop on the alley and fronting on Third. Dr. Green, who owns the house on the north, bought 55 feet of the north end of the lot several years ago as the property originally embraced ground 165 feet square.

It was recalled the site had been owned by a succession of doctors. Dr. Evans first owned the property, selling it to Dr. Moffett, and now Dr. Green has come into possession of it.

WHEAT YIELD EQUALS AVERAGE FOR INDIANA

Put at 12 Bushels in Rush County and Corn Crop is Said to be 97 Percent of Normal

CORN ABOVE THE AVERAGE

The Rush county corn crop is ninety-seven percent of normal, according to the official crop report for Indiana sent out by the co-operating crop reporting service. The report shows the condition August first as compared with normal. The Rush county rye crop is five percent below normal, according to the agricultural experts. The condition of the county corn crop is far above that in adjoining counties.

The average wheat yield for Rush county this year was 12 bushels to the acre, the report shows, and the average rye yield was 17 bushels. Shelby county's average wheat yield is put at 15 bushels, Fayette's at 13, Henry's at 14, Decatur's at 17, Union's at 12 and Wayne's at 10. Rush county's average yield of rye is above the average for counties of this section. The wheat average for the state was 12 bushels.

George C. Bryant, field agent of the crop reporting service, says that a late fall will be required to mature the Indiana corn crop properly. Last week's weather was very favorable due to the rains, but there are still some sections of the state badly in need of rain, he says.

CARTHAGE WOMAN FINED

Carrie Heathcock of Carthage pleaded guilty this morning in Squire Stech's court to the charge of assault and battery as preferred yesterday by Ida May Winslow, also of Carthage. The fine and costs amount to \$11.35 which were paid. Another charge of profanity against the defendant was dismissed. Both parties are colored people of Carthage.

SEVERAL REPORTED KILLED

Clinton, Mo., Aug. 18.—Several persons were reported killed when a Missouri, Kansas and Texas train was wrecked between this city and Sadalia today.

MOTORCYCLE RIDER HURT

Fred Fleechart Thrown From Machine When Front Wheel Comes Off

Fred Fleechart, a young man who is employed by a local garage, suffered severe injuries Tuesday evening when the front wheel of his motorcycle came off while he was going home. The accident happened just west of the bridge over Hodge's branch in West Third street.

Fleechart was traveling a fast clip and when the front wheel let the front part of the machine down on the road, the rider was thrown a distance of approximately twenty feet. No bones were broken, but he sustained many serious cuts and bruises on his hands, arms and body. Fleechart lives about five miles west of Rushville.

DARE-DEVILS TO BE AT LEGION JUBILEE

Babcock is Only Man in World Who Combines Both Feats of Looping The Loop and Flying the Flume

TWO PERFORMANCES DAILY

Greensburg Jubilee to be Held Next Week Also Provides Many Other Big Free Attractions

Babcock, in his dare-devil act that was the feature of the Panama-Pacific Exposition at San Francisco in 1915, will be the principal attraction at the American Legion Jubilee to be held in Greensburg one week beginning August 23-28. Babcock is the only man in the world who combines both feats of looping the loop and flying the flume. He receives \$1,000 and all his expenses for two performances daily, afternoon and evening.

Many Rush Co. people who saw Babcock perform at the big fair on the coast will go to Greensburg during the Jubilee to see him repeat his death-defying feat.

Other big free attractions at the Jubilee are a high diving horse, acrobats and jugglers, a baby show, athletic contests, four brass bands, and daily stunts 1000 feet above the court house by John P. Porter in his Canadian training plane.

The Jubilee will have more shows and thrillers than Coney Island, it is said. A merry-go-round, and airplane swing, and the largest ferris wheel on the road, newly built, are among the rides.

The feature among the shows will be a home talent minstrel staged by Creath Loyd, wealthy commission man of Greensburg whose hobby has for years been amateur theatricals. Mr. Loyd, assisted by James Withers, another Greensburg man, of the professional stage, and a score of Legionnaires will put on the minstrel and as Mr. Loyd's fame as a producer of minstrels is known all over Indiana it is anticipated that he will turn away crowds daily from the huge sixty by one hundred foot tent that will house the show. A dozen shows of every kind and variety completes the show list.

More than 600 feet of displays by Indiana manufacturers and Decatur County merchants will cater to the attention of the Jubilee crowds.

Hundreds of dollars will be given in prizes for small grains, farm and garden products, live stock judging and the like.

A prize of five dollars is offered for the most unique war relic displayed and prizes of ten, five and two dollars and a half for the best collection of relics of the World War.

Thursday, August the 26th, has been set aside by the American Legion as Rush county day although local citizens are cordially invited by their Decatur county neighbors to celebrate with them each day of next week.

WATER AND POWER RATE TO BE RAISED

Water and Light Committee and Supt. Mahin to Present New Schedule to Council

LIGHT RATE TO REMAIN SAME

Mayor's Suggestion to Prohibit Parking in One Block of Main Street Meets Objections

First steps were taken last night by the city council for the proposed increase in rates for electricity and water, when the matter was offered for discussion and left with the water and light committee and Superintendent A. T. Mahin to figure the cost of making electricity and for pumping water, and to prepare a new schedule of rates, to be presented at the next meeting of the councilmen. The new rates will first have to be approved by the state public service commission before they are put in effect.

It has been known for some time that the water and electric rates would be raised, as it was often the topic for discussion. The present rates are based on \$1.75 coal and 1914 labor prices, while today coal is costing from \$7 to \$9 a ton and labor has advanced over 30 percent.

Councilman Mauzy brought up the subject, emphasizing the fact that the plant could not continue to operate at the present rates. While the plant is not directly losing money now, nevertheless it is not making the money that it should, and a plant of this kind should be self sustaining in every detail, councilmen think.

Superintendent Mahin reported that during the last two years, the self sustaining plant had expended \$60,000 for improvements, and not a cent had been borrowed to do the work and carry on the expenses.

With coal costing as it does now, Supt. Mahin reported that some days the plant operated at a loss of \$60 or \$75, and that no plant could

ELECTRIC VOLTAGE TO BE MADE STRONGER

A New High Tension Line Will be Run in Order to Make Better Lights in Residential Section

TWO FEED LINES NOW

Users of electricity in the residential portion of the city will be given more voltage and thus brighter lights will be available, upon completion of a new high tension line, the plans being made last night at the meeting of the city council.

At the present time there are only two main feed lines running from the electric plant. One of these come up Second street to the business district and supply the territory lying south of the C. I. & W. railroad. The other main feed line goes north on Arthur street, and supplies the factories and residences in the north part of Rushville, all above the railroad.

The plan is to run a third line, following the Pennsylvania railroad as far as Eleventh street, and feeding the residences from this line, thus increasing the voltage, and making the current stronger for lights, which is badly needed and is noticed by the users of electric iron, stoves and lights.

The cost for the new high tension line will be between \$1,500 and \$2,000, and Supt. Mahin expects to have it in operation as far north as Main street by winter. By relieving the other two lines it will also increase the voltage in the factory district and business district.

"Judy of Rogues' Harbor"
Mary Miles Minter, star of the Realart Picture, "Judy of Rogues' Harbor," which will be shown at the Princess Theatre tonight is afforded every opportunity to display her gifted ability and matured artistry in this well-known story, adapted from Grace Miller White's book. The athletic young star enters in the tense scenes and exciting situations with all the vim, vigor, nerve and vivacity of her girlhood. She is at home in many scenes calling upon her physical powers and histrionic ability. No expense has been spared to perfect every detail to produce a photoplay that will be hugely enjoyed.
A double feature bill will be offered the Princess patrons on Thursday and Friday of this week, when Bryant Washburn will be seen in his latest picture, "The Sins of St. Anthony," and a two-reel Mack-Sennett feature, "By Golly." Both pictures come highly recommended as being among the best pictures these stars have ever made, and neither need much comment for Rushville theater goers.

GOOD CROWD AT REVIVAL
The meeting conducted by the Rev. M. P. Bimmer at the Church of God, corner of Ninth and Oliver streets, was well attended last night, and the evangelistic campaign which was begun last night, will continue indefinitely. The preaching is the old fashioned kind, it is said and the public is cordially invited to attend the nightly services.

WATER AND POWER RATE TO BE PASSED
Continued from Page One
continue very long to operate at a loss.
The proposed increases will not affect the domestic consumer of electricity, but will apply only to power rates, which are said to be too low.
The water rates now are based on a minimum of \$1 a quarter, and over 50 percent of the water consumers pay the minimum price. This rate will probably be given a big boost, as the rates for water are much too low, according to the councilmen.
With the minimum of \$4 a year for water, it was also pointed out that the meters alone cost the city \$20, without the expense of installation, and that they would take over five years of service before the expense of the meters and installation would be paid for.
Mayor Irvin, stating that he wanted to give the councilmen something to think about, suggested that something must be done to relieve the congestion of traffic in Main street between Second and Third streets.
He introduced a section of an old ordinance in which the councilmen had the power to prohibit parking in any block or section of the street, and offered as a suggestion that parking be prohibited at all times in that business block.
The councilmen, with the exception of Mr. Scudder, did not take very heartily to the plan offered by the mayor. To stop parking in that block would cause a congestion some place else, and besides it was pointed out that there were no doubt some business men in that block who favored the idea of having machines parked in front of his store.
Mayor Irvin said that grocery

stores and other places where a delivery was maintained, were handicapped in getting to their trucks. It was stated by one councilman that farmers objected more strenuously than the business men, because they could not get to the stores, but on the other hand, the majority of the business men would prefer to see Main Street crowded with machines, whether parked within the white lines or two or three abreast, than to see the main thoroughfare of the city lie bare without any parking.
Dr. J. B. Kinsinger, city health officer, reported to the council that he greatly appreciated the employment of Frank Havens, as health inspector, and that between 180 to

190 outside toilets had been cleaned under his supervision, and that 18 loads of manure had been hauled from the alleys of the city.
He stated that the cleanliness of the city was the cause for the healthful conditions existing here, and that during the last two years, not a single case of typhoid fever had developed in the city, one case being brought here from Cincinnati.
E. A. Frazee, living in North Main street was granted permission to gravel an alley beside his house, and the city school board was granted the permission to make a sewer connection through the paved street, in East Sixth, near the Graham Annex.

Dowagiac Steerable One Horse Drill

They are SELF-GUIDING and follow the horse perfectly on short turns or between crooked rows without guiding from the rear.

They are STEERABLE without lifting by the operator. Pressure on one of the handles or the operator shifting his position, when riding on the box immediately changes the course to that side.

They are ADJUSTABLE both as to width of rows and as to depth of sowing.

They are UNIFORM depositors of seed by means of independent and adjustable spring pressure on each disc.

They are CONVENIENT in transportation to and from the fields. One lever raises the discs and the drill is carried on the castor wheel in front and the drive wheels in the rear.

Give us your order for a DOWAGIAC before we are sold on them. The last few years we have had to disappoint many as the demand was heavy and farmers could not wait on re-orders. Let us deliver you one early. Call us. Carthage Telephone No. 9.

Foley's Honey and Tar

COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holdrege, Neb., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a 50c bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

Personal Points

—Mrs. Walter Hoard and children will spend the week-end with her sister, Mrs. Omer Brown of near Gings.

—Mrs. W. P. Deckett and son William of Aurora, Ind., are visiting S. J. Ewbank and family, northeast of this city.

—Miss Bertha Carmichael has returned from a visit at Winona Lake with Mr. and Mrs. Warne Carmichael and family.

—Miss Hazel Garner of Muncie is visiting Mr. and Mrs. A. N. Newbold for a few days, at their home in West Eleventh street.

—Mrs. Ella Neutzenhelzer went to Milroy today to spend a few days visiting Dr. and Mrs. Howard Thomas and to attend the chautauqua.

—Mrs. Fred Boxley and daughter Fay Louise went to Connersville yesterday evening to visit Mrs. Boxley's mother for a few days and to attend the Fayette county fair.

—Charles Norris and son, Ernest Norris of Des Moines, Iowa, formerly of this city, are visiting friends and relatives here and will remain for the Norris family reunion which will be held August 24.

—Mr. and Mrs. Newton Gruell and son of Cincinnati have been spending a few days with Mr. and Mrs. L. B. Osborn of North Harrison street and other friends. They will return home the first of next week.

—Mr. and Mrs. James Sharp and two children, Gladys and Glen of Stiekney, South Dakota, spent the week-end with his cousin, A. F. Leach and family, who live north of Rushville. Mr. and Mrs. Leach and Mr. and Mrs. Sharp and their children motored to Cincinnati Sunday and visited the Zoo.

PROVES WORTH OF USING FERTILIZER

C. Dice of Fountain County Demonstrations Show That Fertilizer Gives Good Return on Crop

BEST YIELD IS 21 BUSHELS

Covington, Ind., Aug. 18—Courtney Dice, Troy Township, Fountain County has been carrying on fertilizer demonstrations on his farm north of Covington for several years. Last fall he used 135 pounds of 2-27 bone meal on his wheat leaving a check strip with no fertilizer and this spring 8 acres of the field was top-dressed with about 6 tons of manure.

At cutting time the check strip was not worth cutting. Where the fertilizer was used alone the wheat made 16 bushels per acre. The 8

"BY GOLLY" — Mack Sennett Comedy

acres that were top-dressed with manure made 21 bushels per acre. Mr. Dice gives some of the credit for this 5 bushel increase to the soy beans that were grown in the field the year before but he thinks the manure produced about 3½ or 4 bushels of the increase.

This is only one of the good demonstrations in the county showing the value of the fertilizer on wheat. Charles Ramser of Wabash Township had the same experience. Where he used no fertilizer the wheat was hardly worth cutting. Where about 200 pounds per acre was used the wheat will make about 15 bushels per acre and on the small strip where he doubled the amount of fertilizer the wheat will make from 5 to 10 bushels more than where only 200 pounds were used, according to L. E. McKinzie, County Agent, who co-operated with him in the demonstration.

MRS. F. DODSON TO TALK

Woman Chairman of Iowa to Address G. O. P. District Rally

Mrs. Frank Dodson, republican woman chairman of Iowa, will be one of the speakers at the republican district rally at Connersville Wednesday, August 25, it has been announced. Plans were made to invite Mrs. Margaret Hill McCarter of Topeka, Kansas, a former Rush county woman, but it is presumed

that she was unable to come. Addresses will also be made by Senator James E. Watson, Warren T. McCray, nominee for governor; Richard N. Elliott, candidate for congress, and others.

Rush county republicans are making arrangements for an immense automobile delegation from this county, which will form in Rushville and proceed to Connersville in a body.

The standard meter kept at Paris is made of iridium.

DO YOU KNOW THAT RUSH COUNTY HAS WITHIN HER BORDERS ONE OF THE GREATEST COUNTRY CHURCHES IN AMERICA? THAT FOR NINETY YEARS THIS GREAT CHURCH HAS BEEN TRAINING MEN AND WOMEN IN THE ETHICS of Christian Citizenship, making a contribution to our County and Nation of inestimable value? That while statistics indicate the passing of the strictly Rural Church, this Congregation is stronger today than at any time during the many decades of her history? That during the last twelve months a New and Modern Temple of Worship costing with furnishings near Thirty-Five Thousand Dollars has been erected? That this building will be dedicated to the "Worship of Almighty God" on next Lord's Day, August 22, with imposing ceremonies? THE LITTLE FLAT ROCK CHRISTIAN CHURCH INVITES THE GOOD PEOPLE OF RUSH COUNTY TO WITNESS THE DEDICATORY RITES. THE GREAT SERVICE WILL BE AT TEN THIRTY SUNDAY MORNING.

No Excuse for Hessian Fly

There is practically no use for the Hessian fly doing the damage it does every year in Indiana, according to entomologists, if farmers will plant their wheat after the safe date in the fall. Every year more farmers are converted to this plan of preventing a common parasite which causes millions of dollars of loss to wheat growers annually.

Farmers are urged to yield to the suggestion which some have made to plant no wheat whatever, as this might cause serious curtailment of the wheat crop and is wholly unnecessary. The way to avoid repetition of the serious losses suffered during the season just past is to refrain from too early planting and observe other precautions recommended by the state and federal authorities. Planting according to schedule will, under normal weather conditions, result in practically complete protection from the Hessian fly, whose life history is so well known that the date of its appearance can be quite accurately forecast.

CHARLES SCHERER
THANKS TO
C. J. WEBB, WESSINGTON SPRINGS, SO. DAK.

Those who have been accustomed to plant wheat early in the fall to avoid its being winter killed are assured that if they observe the recommendations of the authorities as to preparation of the seed bed, the use of good seed, and soil fertility, this risk will be reduced to a minimum. In years when the Hessian fly is abundant, early-sown wheat is practically certain to be seriously injured or to be a total loss whereas the dates for sowing wheat for the maximum yield and quality, regard-

less of the fly, come very near the recommended safe dates. It seems advisable, therefore, to postpone wheat sowing until these dates but to have everything in readiness to sow then, or as soon thereafter, as possible.

The dates recommended are based on years of investigation and have been determined by actual sowings at 3 and 5-day intervals during September and October for a series of years in various localities. Persons interested should secure from the county agent or Purdue university, one of the maps showing the safe dates for the various tiers of counties. After September 30 is regarded as a safe date for planting in Rush county, according to data sent out by the United States department of agriculture, which has gathered these facts with the co-operation of Purdue.

It is realized that sowing dates sufficiently late to be absolutely fly-free would, in some cases, be the cause of considerable winter killing. Having given this fact due consideration, the adjusted date for Rush county is the best sowing dates to avoid both Hessian fly and winter killing. In some seasons of heavy infestations when climatic conditions are abnormal, these dates will be too early. The fall of 1919 was just such a season. In such cases in the future provision has been made to determine the number of days the fly is expected to be a menace after the regular dates as indicated, and this information will be given out by the stations in the various states far enough in advance for the farmers in every locality affected to make the necessary changes in their plans in order to protect their crop.

When the Hessian fly has once become established in a crop of wheat, there being no remedy that will save it, all effort should be made to protect the next year's crop. Any practice which will reduce the number of flies that emerge in the fall, such as the plowing under of infested stubble in summer or early fall should be adopted where such measures do not interfere so seriously with rotations as to cause disproportionate losses. If volunteer wheat starts, it must be killed by disking, plowing under, or otherwise, before a brood has had time to develop in it. Prepare a good seed bed, use good seed, and make sure that the soil is sufficiently fertile to furnish all the proper nourishment that the young wheat plants can use. Last and most important, postpone sowing until the safe date. It should be remembered that farmers must cooperate in this matter. A single field of early-sown wheat will often furnish enough flies to infest an entire locality the following spring, agricultural experts advise.

The poor man has reason to be joyful in his adversity. He doesn't have to employ an attorney to keep him out of jail for pulling crooked deals in the realms of high finance.

The man with money has troubles of his own. He has to be forever sidestepping to prevent some other fellow from euchreing him out of it.

Every man owes a duty to his country. Some pay, and others want the country to pay them.

Whenever we hear a fellow talking about his brains we wonder just how badly scrambled they are.

The pike preceded the bayonet for infantry use.

GOITRE

Caused Voice to Fail for Indianapolis Lady. Relieved By External Remedy

Note: It would be illegal to publish these statements if they were not true. Mrs. Fred Mass, 422 Christian St., Indianapolis, Ind., says in her own home paper, the Indianapolis Star: "I have used one bottle of Sorbol Quadruple and my goitre is almost gone. I had lost the use of my voice for singing, but that is near normal again. It relieved me of having horrible dreams. I cannot say enough for Sorbol Quadruple. A friend in the next block has had even more wonderful results than I. I will be glad to talk or write to any one about it."

Sorbol Quadruple comes in small bottles containing enough for most cases. Will not stain or irritate. Does not interfere with regular work. Leaves parts in healthful, normal condition. Easy to use. Requires 10 minutes daily.

Gives Advice To Indiana Citizens

Urges them to profit by his experience. Says he was nervous, restless at night; very bilious with spots dancing before his eyes. Had little boils all over his body, but Dreco has wiped away all of these troubles.

"I wish every good citizen of Indiana could profit by my experience with the greatest medicine I ever took which is Dreco," said Mr. Oscar Campbell, the widely known merchant and farmer of Wheeling, Delaware Co., Ind.

"I used to have spots dancing before my eyes; dizzy spells; was so nervous I couldn't sleep sound and my blood was not in good condition, for small boils would break out all over my body. My entire system was weak and rundown when I started taking Dreco, but that medicine seemed to go right to the bottom of my troubles and wipe them out.

"I've taken two bottles of Dreco and my nerves are steady as a clock; I sleep sound every night; haven't had a dizzy spell now in weeks and the spots have disappeared before my eyes. Dreco has cleansed my blood for the boils are all gone and my skin is as smooth as a baby. I feel great and give all the praise to Dreco."

All druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson & Co.—(Advt.)

INDIANA MINE FILES AN INJUNCTION SUIT

Attacks Constitutionality for Coal Regulation in Indiana on Grounds That it is Discriminating

UNFAIR LICENSE IS CAUSE.

Indianapolis, Ind., Aug. 18.—Attacking the constitutionality of the law for regulation of the coal industry in Indiana on the ground that it is discriminating, the American Mining Company of Brazil, Ind., asked the federal court here for an injunction to restrain state officials from enforcing the law. Governor Goodrich, State Auditor Klaus and Jesse Eschbach, chief examiner of the state board of accounts, were named in the suit for an injunction. All are members of the state board of accounts which was named by the recent special legislature as the administering body.

Five sections of the act are attacked by the Coal company. They are 7, 8, 9, 10 and 13. The company charges that each of these discriminate in violation of the federal constitution.

The suit was based on the ground that the act provides for the licensing of Indiana coal producers but that no provision is made for the licensing of the Illinois producers, which the suit said is legislation in favor of the Illinois operators and therefore directly opposite to the interstate commerce law and the federal constitution.

The suit alleges that 43 percent of the coal used in Indiana is mined in other states.

AUG. 28 WILL BE "INDIANA DAY"

Republicans of State Will Journey in Big Style to Marion, O. to Greet Senator Harding

3 SPECIAL TRAINS EXPECTED

Engines Will All be Equipped With Different Whistles and Banners Will Adorn the Trains

Indianapolis, Ind., Aug. 18.—Indiana folks who go to Marion with the special delegation on August 28th to greet Senator Harding, are planning to make this a day of great demonstration.

In the first place each of the locomotives drawing the three or more sections of the special train that will leave Indianapolis will have a special whistle. It hasn't been let out as to just what kind of a whistle it will be, but Richard Lewther, secretary of the Indianapolis Harding-for-President Club, which is making the arrangements, says there will be special whistles.

The locomotives will be decorated with flags and bunting, and banners with four-foot letters proclaiming Harding-for-President, and other good Republican slogans, will be pasted to the sides of every passenger car.

When the crowd arrives in Marion all plans will be ready for making the affair an 'Indiana Day'. At least 3,000 are expected to be on hand, among them the leading Republicans of this state. Senator Watson, Senator New, Warren T. McCray and State Chairman E. M. Wasmuth will be among those making the trip.

Republicans of the tenth district will have their own special train. They will pick up other delegations at South Bend, Fort Wayne and way points. The tenth district special will leave over the Erie at Hammond, at 10 o'clock on the night of August 27th, and will arrive in Marion early the next morning.

A special train in three sections will run to Marion from Indianapolis. All Republicans in the state are invited to go. Elias J. Jacoby, President of the Indianapolis Harding Club, is making arrangements for the trip.

G. O. P. WOMEN PLAN ACTIVE CAMPAIGN

Executive and State Committee Outlines Work For Fall at Meeting Today

REPORTS FROM DISTRICTS

Indianapolis, Ind., Aug. 18.—Preparations for a vigorous campaign among Republican women in Indiana were made here today at a meeting of the Republican women's executive committee and the women's state committee. The meeting was held in Republican state headquarters.

Reports of the progress of the work in each district were made by the women district chairman and all declared that favorable results are being obtained in the organization work. Another phase of the present work is calculated to bring out the full voting strength in the registration. Meetings are being held in all communities for the purpose of explaining the registration laws and emphasizing the necessity of registering in order to vote in the fall.

Talks were made at the meeting by E. M. Wasmuth, state chairman; Mrs. Joseph B. Kealing, chairman of the executive committee; Fred E. Schortemeier, secretary of the state committee; Miss Dorothy Cunningham, director of the women's bureau; Fred Sims, and Miss Katherine Smith, of the women's bureau.

BATESVILLE CANCELS

The Batesville baseball club cancelled the game with the Tail Lights which was scheduled for Sunday, and Manager Conway today was busy getting in communication with other teams in this part of the state in an attempt to secure a good attraction for the game Sunday. The Batesville team underwent a change in management, which was given as the cause for the cancelling of the game.

HERE IS YOUR CHANCE

We are Putting in a Saw Mill on our farm 2 miles east of Gings to cut out about 35 acres timber. Will be in operation only very short time, now is your chance to get your timber or lumber for that barn, double corn crib, corn crib roofs or floors, stable flooring, fencing, gravel beds etc.

As we all know it is a hard matter to get this kind of material so do not delay letting us know your wants at once as we are only going to be in business a very short time. For further information and price, See or call either

WANTED
Students, age 19 or over, with Eighth grade education or better for Power Laundry Course. A cooperative system of education; the student earns while he learns. Fitted after two years training for a job at a fair salary in profitable and established trade with excellent opportunity for rapid advancement. First-class living conditions while training with a wage that is partly self-supporting. Address Ohio Mechanics Institute, Cincinnati, Ohio.

The Purdue Alumni Association of Rush county held an all day picnic and outing at Lake McCoy near Greensburg yesterday. Former students and their families and friends were in attendance and enjoyed the day in fishing, boating and bathing. A basket dinner was served at noon. The following guests were present: Mr. and Mrs. Ralph Miles, Donald Alexander, Mr. and Mrs. Berl Hinchman, Albert Smullen, Mr. and Mrs. Russell Baker, Mr. and Mrs. Eli Martin, Mr. and Mrs. D. D. Ball, Mr. and Mrs. Lowell Norris, Mr. and Mrs. Walter Norris, Mr. and Mrs. Floyd Norris, Mr. and Mrs. Hubert Innis and Clyde Henley. The families and several friends also were in the picnic party.

Many persons from a distance attended the annual reunion of the Mauzy family which was held at the city park Tuesday. A delicious dinner was enjoyed at noon and most of the afternoon was devoted to a program consisting of music, readings and short talks. J. R. Johnston of Pittsburg, who was invited to the reunion, was unable to be present, but he responded with flowers and souvenirs, for every person attending the reunion.

At the business session it was decided to hold the reunion at the same place next year, but the date was changed to a week later. Thomas H. Parry of Indianapolis was elected president of the reunion association; David Wilson of Shelbyville, vice-president; Miss Lola Parsons of Indianapolis, secretary and Ralph Payne of this city, treasurer.

Among the guests from out of the county were Mrs. Sarah Eberts and John M. Mauzy of Jeffersonville; Mr. and Mrs. Albert Hall, Aquilla Mauzy and Charles G. Mauzy of Fowler, Ind.; Wilford Mauzy and Will Mauzy of Berkley, California; Mr. and Mrs. Thomas H. Parry, Miss Parsons, Mrs. Collins and George Mauzy of Indianapolis; Mr. and Mrs. Major and David Wilson of Shelbyville, and Mr. and Mrs. George DeHority of Elwood.

WOMEN LOVE LIFE AFTER THIRTY-FIVE

(By United Press.)

London, (By Mail)—Cheer up, women! The first thirty-five years of life, are the worst.

According to Dr. Josiah Oldfield, who has made a life long study of women and their woes, women are happiest and at their best from the age of thirty-five onwards.

"The popular idea that the young woman is queen of the earth and has the world at her feet is a fallacy". Dr Oldfield confided to a gathering of medical legal authorities, "This discovery is based not on mere theory, but on the comparative number of men and women suicides after the age of thirty-five.

"Life undoubtedly becomes more pleasant and attractive to women after they have reached this age. More young women commit suicide between the ages of fifteen and thirty-five than young men, but once thirty-five is attained the position is entirely reversed.

"Men suicides are largely in the majority."

REMOVED TO HIS HOME

James Haywood, age twelve years who underwent an operation for appendicitis at the Dr. Frank H. Green hospital Tuesday of last week has been removed to his home and is recovering nicely.

BETTER AFTER OPERATION

Albert S. Land of Brookville, who was suffering with a serious attack of appendicitis and was operated on at the Dr. Frank H. Green hospital Sunday, is much improved and will recover, it was stated today.

DR. JOHN GREEN IMPROVES

Dr. John Green of Manilla, who has been seriously sick following an operation for appendicitis a few weeks ago, is showing much improvement, it was stated today by the attending physician.

DEFECTIVE FLUE THE CAUSE

The fire department was called to the residence of James Yazel, 1177 West Market street, yesterday afternoon about 5:30 o'clock. A defective flue caused a loss of \$5.00 to the roof of the house. The alarm was telephoned into the fire station.

ACCOUNT SUIT FILED

Wylie McKee a merchant of Milroy has filed suit in circuit court against Samuel H. Colter on an account, demanding \$125 judgment. The complaint is based on an account of goods purchased by Colter from the plaintiff, which he avers is unpaid to the amount asked for in the complaint.

Tennessee Ratificationists Win After Two Days Debate

Continued from Page One
occasion of the Seneca Falls convention.

The most memorable incident in the career of Miss Anthony, whose unassuming character endeared her to thousands of American women as well as men, occurred in 1872 when she was arrested at her home in Rochester, N. Y., on a federal warrant charging her with illegally voting in the congressional election of that year. With her thirteen other suffrage pioneers were hailed to court, as were four election judges and clerks who accepted the women's ballots.

The trial before Judge Hunt created a national sensation. Dismissing the cases before him, Judge Hunt after a speedy hearing took the case away from the jury and fined Miss Anthony \$100 and costs. The defendant's plea was that she had voted under the Fourteenth amendment to the Constitution which gave the vote to all citizens without respect to "race, color or previous condition of servitude."

Miss Anthony died in 1906, her eighty-sixth year, at Rochester.

The proposed amendment was finally adopted by Congress on June 4, 1919. The first state to ratify was Illinois, whose legislature accepted the amendment on June 10, 1919. Ratifications of other states were made in the following order:

Wisconsin, June 10; Michigan, June 10; Kansas, June 16; New York, June 16; Ohio, June 16; Pennsylvania, June 24; Massachusetts, June 25; Texas, June 28; Iowa, July 2; Missouri, July 3; Arkansas, July 28; Montana, July 30; Nebraska, July 31; Minnesota, September 8; New Hampshire, September 10; Utah, September 30; California, November 1; Maine, November 5; North Dakota, December 1; South Dakota, December 4; Colorado, December 5; Rhode Island, January 6, 1920; Kentucky, January 6; Oregon, January 12; Indiana, January 16; Wyoming, January 27; Nevada, February 7; New Jersey, February 10; Idaho, February 11; Arizona, February 12; New Mexico, February 19; Oklahoma, February 23; Tennessee, August 18.

Wyoming and Utah are the only states in which there has been no suffrage fight. Equal suffrage for both sexes was included in the constitutions of these states when they were admitted to the Union.

The effects of the work national and state women leaders have done for equal suffrage prior to the enactment of the federal amendment allowing women full share in elections is shown in the fact that twenty-nine states had already adopted full, presidential or primary suffrage. In the remaining 19 states there was either partial suffrage (usually in school elections) or none at all.

A. O. HUNTER, of Cincinnati, Ohio, who says Tanlac has certainly proven its worth in both his own and his wife's case. He wasn't able to work when he began taking it.

"Last fall I had the 'Flu' and it left me in a very weak and run down condition with no appetite at all and such a weak stomach that even the smell of cooking made me sick. I was awfully nervous and night after night I couldn't sleep to do any good. I would get up in the mornings tired and worn out and was so short of breath that a half hour's job would tire me as much as a whole day's work used to. In fact, I finally had to give up a good job.

When I first started on Tanlac I was working for the Goodyear Rubber Co., in Akron, Ohio. I decided that anything that was being talked about so much was at least worth an honest trial. It worked like a charm in my case. It helped me right from the start and by the time I had taken my third bottle all of my troubles were gone and I found myself well and strong again.

"While in Akron my wife got so she couldn't eat. She lost weight and got so very pale. Tanlac was doing me so much good I got her to try it and after taking two bottles, she is looking fine again. Her appetite is just splendid, and she looks like a different person. It certainly has proven its worth to both of us and has come up to every word I have read and heard about it."

The above statement was made by A. O. Hunter, 106 W. 7th St., Cincinnati, Ohio, a well known mechanic now in the employ of the Cincinnati Abatoir Co.

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McCarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2—Adv.

THE 99c STORE

Movies and the Eyes

There is no evidence to prove that the "movies" are imperiling the sight of the nation. Careful investigation leads to the opposite conclusion.

Recent improvements and greater care in operating the projecting machines have almost entirely eliminated the mechanical defects, so you may be quite certain that when your eyes trouble you while viewing moving pictures, it is due, not to the pictures, but to defective eyes which call for optometry's aid.

The person with normal eyes will not suffer at picture shows unless visited to excess. At the very first indication of eye trouble call and let us make a careful, scientific examination of your eyes.

CUT WORMS ARE TOMATO MENACE

Purdue Expert Says That Statistics Show 25 Percent of Tomato Plants Are Affected

IS VERY EASILY CONTROLLED

People Are Urged to Follow Same Methods as Used When Army Worm Attacks Corn Fields

Numerous reports of serious cut worm damage in central Indiana have been received at Purdue University. An investigation in Grant, Tipton, and Clinton counties made by the Horticultural Department and W. H. Larimer, Government Entomologist, showed as high as 25% of the tomato fruits now set affected by the variegated cut worm.

These worms are attacking gardens, sugar beets, flowers and almost all green crops, but are serious so far as reports indicate only in gardens and a few tomato fields.

Fortunately this insect is easily controlled by the same remedy as applied to the army worm during recent years.

On a field scale thoroughly mix 50 pounds of bran with 2 pounds of Paris green, crude or white arsenic. Dilute 1 gallon of cheap "Black Strap" or other grade molasses with 4 to 6 gallons of water. Wet the bran with the dilute molasses poison mixture until a handful of the mash, when squeezed tightly, will just show water between the fingers.

Broadcast the bait as thinly as possible over the infested fields. Seven to ten pounds of the wet mash should cover one acre, 50 pounds of bran should cover ten acres.

For small gardens use 1 pound of bran, 1 oz. of Paris green, crude or white arsenic, 1/2 cup molasses and 1 pt. of water.

The arsenicals used are deadly poison and extreme care should be taken to prevent any domestic animals, including chickens, from eating the bait before it is applied. When the mash is scattered thinly as directed, there will be no danger whatever.

OPEN HOUSE AUG. 19 AT FOREST RESERVE

Every Hoosier Interested in Reforestation Invited to Visit Reserve and Note The Progress

C. C. DEAM TO CONDUCT TOURS

Forest Reserve at Henryville Consists of 2,000 Acres and Was Purchased by State in 1903.

The state conservation department will keep open house Aug. 19 at the Clark county state forest reserve, one mile north of Henryville. The date will be known as visitors' day and a cordial invitation is extended to every Hoosier, and especially those interested in reforestation, to visit the reserve and note the progress made since this woodland tract came into possession of the state more than a decade ago.

John G. Brown, president of the Indiana Federation of Farmers' Associations, and other prominent men are to appear on the program to begin at 1:40 p. m. at the administration building. A representative from Purdue University has promised to be on hand to discuss the attitude of the experiment station on forestry; D. V. Mann, Clark county farm agent, will tell of his work as a factor in helping solve the forestry problem, and Richard Lieber, director of the department of conservation will note actual results accomplished in forestry in Indiana and outline a future policy in forestry in the state. A speaker to be selected, will discuss the subject of forestry in connection with the public schools, and the vital need of increased forest production because of the alarming paper shortage and dwindling supply of woods for various and industrial uses.

Charles C. Deam, state forester, and assistants will be present to personally conduct tours through the state forest and point out and explain the many points of interest.

The state forest reserve is located one mile north of Henryville and can be reached by rail over the Pennsylvania railroad by going to Henryville or by traction over the Interstate line. All traction cars will stop at the reserve on visitors' day. Good auto roads connect with the reserve.

The forest reserve consists of 2,000 acres and was purchased by the state in 1903 for \$16,000. The administration building was completed in 1906. Since the spring of 1904, when some of the forest plantings were started, the state has steadily progressed with its experiments and on this 2,000-acre preserve is conducting the most extensive investigation of growing hardwoods ever conducted in the United States.

Today visitors at the reserve will see 175 acres of cleared land that has been planted to forest with 23 different kinds of trees, some of which are now 6 inches in diameter. There is a park of seven acres which contains 82 species of trees and 63 varieties of shrubs. Experiments extending through more than a decade of years prove conclusively that trees planted 5x6 and 6x6 feet apart do best. The former will permit raising 1760 trees per acre and the latter 1200 per acre. According to Mr. Deam, plantings of black locust made 6x6 have proved most satisfactory.

Many splendid scenic effects are obtained at the reserve. The view from the "lookout on top of the knobs" is one of the grandest in Indiana, and on a clear day, Louisville, Ky., 20 miles distant, appears in the vista. A panorama of the 2,000 acre woodland is unsurpassed.

Visitors should take their lunch, although by engaging it a day ahead dinner may be obtained at the hotel in Henryville, at 75c a plate. Coffee will be served free at the reserve.

Championship Heavyweight
Baby of Indiana at Berne

Berne, Ind., Aug. 18.—The little town of thirteen hundred people claims the champion heavyweight baby of Indian.

Laurese Meyers is less than a year old, but weighs forty pounds. She is three feet, six inches high.

According to the bureau of birth registration, Laurese is the largest child for her age ever recorded in Indiana. Mr. and Mrs. Tony Meyers, the parents, say Laurese has relatives in California, Iowa, Minnesota, Wisconsin, Colorado, Missouri, Michigan, Ohio, and New York.

Besides these, other relatives live in Germany, Switzerland, Holland, and Poland.

Grove's Iron Tonic Syrup

Pale Children Need Iron

Iron in Syrup form is more readily digested and assimilated than Iron Pills or Iron Tablets, and naturally you get quicker results. The Iron in GROVE'S IRON TONIC SYRUP is digested as soon as it is swallowed and, therefore, is promptly assimilated. You can soon feel its Strengthening, Invigorating Effect.

The Syrup is flavored and children love to take it. Contains no Nux-Vomica or other poisonous drugs, therefore, it can be given to The Babe, The Child, The Mother and The Grandmother with perfect safety.

Grove's Iron Tonic Syrup

Price 60 Cents.

Lunch will be served by the Ladies' Aid of the Christian Church.

D. L. MULL

MILLER & KEMPLPE, Auctioneers.

J. G. BROWN APPOINTED TO AN IMPORTANT POST

Head of Farmers' Association is Chosen as One of Committee on National Live Stock Affairs

TO REDUCE AVOIDABLE LOSSES

Chicago, Aug. 18.—John G. Brown, of Monon, Indiana, president of the Indiana Federation of Farmers' Associations, has been appointed a member of the Advisory Committee of the nation-wide conference to reduce avoidable losses on live stock. Losses of this sort not only amount to many millions of dollars yearly but also reduce the nation's meat supply by millions of pounds annually.

The appointment was announced here today when Everett C. Brown, President of the National Live Stock Exchange and Chairman of the conference, made public the constituency of committees representing producers, live stock shipping associations, railroads, the Institute of American Meat Packers, live stock exchanges and stock yards throughout the United States.

It is estimated that bruises alone last year caused monetary losses on live stock and meat approaching \$15,000,000. A vigorous campaign will be conducted in every section of the country to eliminate avoidable losses by proper handling and shipping of meat animals.

NUXATED IRON

HELPS MAKE STRONG, STURDY MEN and HEALTHY BEAUTIFUL WOMEN

"Iron is red blood food and in my experience I have found no better means of building up the red blood corpuscles and helping to give increased power to the blood than organic iron—like Nuxated Iron." Dr. H. B. Vail, formerly physician in the Baltimore Hospital and a Medical Examiner.

DO NOT ACCEPT SUBSTITUTES

Mobile Co., Alabama

Down where one is not troubled with catarrh, colds or rheumatism. The climate is simply ideal. No sudden changes. Good location for a dairy or stock farm. Crops grown are corn, cane, Irish and sweet potatoes, beans, peas, etc. I have 1,396 acres improved and unimproved farms of 40 acres up within 15 miles of Mobile that I will sell on reasonable terms.

B. E. Marshall

729 Lemcke Bldg., Indianapolis, Ind. Main 836

PUBLIC SALE

At my residence, 8 miles west of Milroy, 5 miles north of St. Paul, 9 miles east of Shelbyville, 2 miles southeast of Blue Ridge in Orange township, Rush County, Ind., on

Friday, August 20, 1920 Beginning at 10 o'clock a. m. the following personal property:

Garden Beauty Most Anyone Can Afford

Look about as you walk or drive through a residential district and note the attractive places. It isn't the "finest" homes by any means that catch your eye. More often it is the well kept yard, the shrubbery, the trimmed trees and flower beds.

And then when you see in combination with these, a neat fence, an arbor, a pergola and a bird house—you exclaim: "What a picture."

The wonder of it is that more folks don't have these tasty little garden features. There's nothing cooler and better looking. And the cost! You'll be surprised how reasonable it is.

We'll take just as much interest in supplying you with the lumber for these little improvements as if you were buying materials for a house. We can make some interesting suggestions.

BRITISH HAVE SOME HOPE AT OLYMPICS

Team Laboring Under Predictions of Sportsmen That World's Athletic Title Will Not go to England

CONFIDENCE IN HIGH JUMP

Boxing is Another Branch in Which There is an Excellent Chance For Great Britain

(By United Press.)

London. (By Mail).—Great Britain's Olympic team, though preparing energetically for the test at Antwerp next month, is laboring at present under the somewhat flattening predictions of sportsmen that wherever the world's athletic title goes, it will not be to England.

At present, some sporting writers are even suggesting that the personnel of the team be cut to a minimum because of the supposedly superior chances of the United States and particularly of Sweden.

For the field events, in which interest both in England and the United States is expected to center, there is but one event in which there is real confidence—the high jump. In this Howard Baker, who recently jumped 6 feet 3½ and can do better, is expected to show up well along with J. Carroll, the Irish jumper. Although at the American trials the winning mark was six feet four, it is thought by English athletes that one of their two star jumpers may better this—granting it's the best.

C. W. Paddock's—University of California—9 4/5 seconds in the 100-yards has somewhat dampened hopes in this line, as in the British trials the best the champion, H. F. Edward, could do was ten seconds. But with W. A. Hill, former champion sprinter, to accompany him, even the pessimists are hoping for the best.

Edward's time for the 220 is 21 3/5 seconds—only a fifth of a second behind the best American time. And there is always the hope that a good money-finisher will surpass his best effort in a pinch.

G. B. Rudd, a native Englishman is the best around there parts in the quarter and the half. But unfortunately he will run for South Africa. The British team will have instead G. M. Butler of Cambridge from whom Rudd took the championship in the quarter. H. M. Abrahams, who has been running well, also may finish in the money in the 220 or 440. There is fear, though that Abrahams, a member of the Polytechnic team, will not stick to the sprints but branches out into the long jump and hop-step-and-jump.

Boxing is one branch in which

there is thought to be an excellent chance for the Britishers. The team includes three Scotsmen—W. Cuthbertson, G. McKenzie and J. Cater

will uphold the flyweight, bantam of the boxing team is its trainers—and feather classes respectively. Jimmy Driscoll, Joe Bowker and Fred Grace and J. Gilmour will be Tane Lee, all men who know the lightweights. The greatest asset game.

Small Cars—and the Declining Cost of Tire Mileage

You are aware, of course, that during the last ten years, Goodyear has been able steadily to increase the amount of mileage built into its tires.

Do you realize, also, that this increase has been accomplished without extra cost to the user—that Goodyear Tires are priced no higher today than in 1910?

In no tire in the Goodyear line is the declining cost of mileage more evident than in the present 30 x 3-, 30 x 3½- and 31 x 4-inch size Goodyear Tires made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get the exceptional worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$2350

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$2150

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size, \$450 in waterproof bag

SUFFRAGE AMENDMENT RATIFIED

TENNESSEE RATIFICATIONISTS WIN AFTER TWO DAYS DEBATE

Equal Rights For Women Becomes
Part of Basic Law When House
Adopts Resolution

IS 36TH STATE TO RATIFY IT

Women Will Vote an Equality With
Men Nov. 4 Unless Amendment
Is Blocked in Courts

OPEN TO RECONSIDERATION

Speaker Walker Changes Vote to
Make This Possible, Final Re-
sult Being 50 to 46

(By United Press.)

Nashville, Tenn., Aug. 18.—Women's suffrage became part of the basic law of the United States today when the Tennessee legislature ratified the Susan B. Anthony constitutional amendment.

The Tennessee house passed the resolution by a vote of 49 to 47, first and Speaker Walker changed his vote in favor of the resolution, making the final vote 50 to 46.

It had already been adopted by the senate.

Tennessee was the 36th state to ratify, thus completing the number required and putting the amendment into the constitution and ending the long fight for equal suffrage.

The victory came after two days of debate.

Women now will be able to vote in the November election on an equality with men unless the amendment is blocked in the courts or a reconsideration changes the results.

The vote in the house came with dramatic suddenness after an ineffectual attempt to table the resolution of ratification had been made.

Speaker Walker moved to table. The vote on this was 48 to 48 and the house was in an uproar because the decision was in doubt. When order was restored, the clerk began to call the roll on the original resolution for ratification. The vote was

NO PREACHING SERVICE HERE

There will be no services at the Main Street Christian church next Sunday, with the exception of Sunday school at 9:30 and a brief communion service afterward, on account of the dedication of the new church by the Little Flatrock Christian congregation, which will take place Sunday.

It is expected that delegations will be present for the dedicatory services from Christian churches all over this section of the state because Little Flatrock is known far and wide in the Christian denomination, due to its healthy growth in spite of the decay which has taken place among the rural churches. The Little Flatrock congregation is especially proud of its ninety years of history, which will be extolled in the services Sunday.

Services Sunday will consist of Sunday school at 9:30 a. m., morning worship at 10:30, a union memorial service in the afternoon at 2:30 and the formal dedication service at 7:30 in the evening. George L. Spively will speak at the morning and evening meetings. The complete program will be printed in the Republican later this week, either Thursday or Friday.

Carrie Chapman Catt Says
Women Are Ready to Vote

Nashville, Tenn., Aug. 18.—Commenting on the suffrage victory, Mrs. Carrie Chapman Catt, president of the National Woman's Suffrage association, who directed the fight for satisfaction here, said today:

"For the country and the world this victory means this government which purports to be 'by the people' is indeed by the people and not half of them."

"For women the suffrage victory means opportunity for more work and added responsibility. It is too belated to come with a shout of surprise. We have been ready for the work that lies ahead."

Speaker Walker was immediately on his feet and the house was in confusion. Then Walker said: "I change my vote."

This made the vote 50 in favor of suffrage and 46 against. Walker was an anti-ratificationist. By changing his vote he gains two days during which a reconsideration may be had.

The anti-suffragists will immediately begin work to get a reconsideration and will attempt to make the change needed to turn defeat into victory.

For a minute after the final vote was called, it looked as if it was a tie. It would have been but Rep. Burns immediately announced that he changed his vote from No to Aye. After the vote the house adjourned.

The Nineteenth Amendment to the Constitution of the United States is a living monument to its dead framer, Susan B. Anthony.

Passed by Congress and ratified by three-fourths of the states in almost the exact words as set down by "the woman emancipator," the measure gives full and impartial franchise to 25,000,000 American women, comprising the largest body of citizens ever admitted at one time to the ballot in the United States.

While the fight for equal representation for both sexes was begun as early as the first year of American independence, no serious, organized or determined effort was made in women's behalf until the days of Miss Anthony. In 1848 at Seneca Falls, N. Y., Miss Anthony called to order the first national woman's suffrage convention.

Attempts at partial suffrage by states were made first in Kansas. That was before 1865, and not until 1867 were suffrage leaders able to get a proposition before the state legislature. It was defeated at that time and suffered additional setbacks until 1874 when the state assembly voted to strike the word "male" from the suffrage clause in the state constitution.

Other attempts, in many cases similar to the Kansas situation, were made in Michigan, 1874; Colorado, 1877 and 1893; Nebraska, 1882; Oregon, 1884 and 1900; Rhode Island, 1886; Washington, 1889 and 1898; South Dakota, 1890 and 1898; California, 1896 and Idaho, 1896.

In all moves made for enfranchisement of women in the United States, Susan B. Anthony stood out most prominently. Born in 1820 near Adams, Mass., Miss Anthony began to take an active interest in politics for women after she had taught in private schools in New York state and New England. After rebuff on top of rebuff but still undaunted, because, she said, she knew her cause was right, she assumed national control of suffrage matters on the

FIRE LOSS OF \$300,000

Blaze in Cabinet Works at South Bend Under Control

(By United Press.)

South Bend, Ind., Aug. 18.—Two firemen were slightly injured and damage estimated at more than \$300,000 was caused today by fire in the sheds in the cabinet works of the Singer Sewing machine company here. The first alarm was sounded at 12:10 a. m. and at 10 o'clock this morning it became apparent it would be late this afternoon before the firemen could cease their efforts.

The fire was under control shortly after daylight but the stacked veneer continued to smoulder and workmen were put to work taking the piles away. Shortly before daylight two firemen were caught by a falling wall but were quickly rescued without serious injury.

TIDE OF BATTLE FAVORS THE POLES

Polish Delegates Who Went to Minsk as Beggars Rapidly Approach Equality With Russians

REDS ARE PRESSED BACKWARD

Polish Armies Assume Offensive Under French Leadership on Whole 500 Mile Front

(By United Press.)

The Polish armistice delegates who went to Minsk almost in the role of beggars for the crumbs of peace from the Russians are rapidly approaching a basis of equality through the unexpected and spectacular victory of their armies.

Officered and directed by the best of the French military strategists, the Poles have assumed the offensive along practically the whole 500 mile battle front.

Although the Bolshevik claim minor successes in isolated sectors, dispatches from neutral as well as Polish sources today showed the soviet forces have been forced backward from 10 to 15 miles at some places. At some points the retreat borders on a rout.

The Russians were still far within the eastern Polish boundary proposed by the treaty of Versailles, except for a small frontage, but the moral advantage in the military situation was believed to be veering definitely towards the Poles. This was due to several factors such as reported depletion of Russian artillery supplies and munitions, the ebbing of the Bolshevik morale and the final ejection of the Russians from the Danzig corridor and the eastern outskirts of Warsaw.

French military experts saw in the present battle a resumption of the old duel of French and German strategy with Gen. Weygand directing the Poles and Gen. Ludendorff the Russians.

POLICE HAVE 3 BICYCLES

Patrolman Pea has three bicycles at police headquarters which belong to Rushville people, and anyone that has lost a bicycle can have theirs if they give the officer a description of it. The bicycles were picked up by the police after being left in the streets, and might have been stolen by someone had they not been taken care of by the officers.

TWO UNDERGO OPERATIONS

Mrs. John Mangold of near Falmouth and Albert Brock, son of Mr. and Mrs. Albert Brock of Clarksburg, underwent operations for the removal of their tonsils at the Dr. Frank H. Green hospital today.

REMOVED TO HER HOME

Mrs. Will Meyer, who recently underwent an operation at the Memorial hospital in Cornersville, has been removed to her home near Gings.

DR. F. H. GREEN BUYS DR. MOFFETT PROPERTY

Purchases Old Residence and Site 110 by 165 Feet, at Corner of Third and Perkins

CONSIDERATION IS \$5,000

Dr. Frank H. Green today bought what was known as the Dr. Moffett property, corner of Perkins and Third streets, from William H. Moffett, son and only heir of the late Dr. John Moffett. The consideration was \$5,000.

Dr. Green said that he did not know what he would do with the property and that he had no purpose in buying it, except that he was given the opportunity and took advantage of it.

The lot has a frontage of 110 feet in Perkins street and runs east a distance of 165 feet to the alley in the rear. The old Moffett residence, which has not been inhabited for years, still stands on the lot. There is also a small office facing Third street and a plumbing shop on the alley and fronting on Third. Dr. Green, who owns the house on the north, bought 55 feet off the north end of the lot several years ago as the property originally embraced ground 165 feet square.

It was recalled the site had been owned by a succession of doctors. Dr. Evans first owned the property, selling it to Dr. Moffett, and now Dr. Green has come into possession of it.

WHEAT YIELD EQUALS AVERAGE FOR INDIANA

Put at 12 Bushels in Rush County and Corn Crop is Said to be 97 Percent of Normal

CORN ABOVE THE AVERAGE

The Rush county corn crop is ninety-seven percent of normal, according to the official crop report for Indiana sent out by the co-operating crop reporting service. The report shows the condition August first as compared with normal. The Rush county rye crop is five percent below normal, according to the agricultural experts. The condition of the county corn crop is far above that in adjoining counties.

The average wheat yield for Rush county this year was 12 bushels to the acre, the report shows, and the average rye yield was 17 bushels. Shelby county's average wheat yield is put at 15 bushels, Fayette's at 13, Henry's at 14, Decatur's at 17, Union's at 12 and Wayne's at 10. Rush county's average yield of rye is above the average for counties of this section. The wheat average for the state was 12 bushels.

George C. Bryant, field agent of the crop reporting service, says that a late fall will be required to mature the Indiana corn crop properly. Last week's weather was very favorable due to the rains, but there are still some sections of the state badly in need of rain, he says.

CARTHAGE WOMAN FINED

Carrie Heathcock of Carthage pleaded guilty this morning in Squire Stech's court to the charge of assault and battery as preferred yesterday by Ida May Winslow, also of Carthage. The fine and costs amount to \$11.35 which were paid. Another charge of profanity against the defendant was dismissed. Both parties are colored people of Carthage.

SEVERAL REPORTED KILLED

Clinton, Mo., Aug. 18.—Several persons were reported killed when a Missouri, Kansas, and Texas train was wrecked between this city and Sedalia today.

MOTORCYCLE RIDER HURT

Fred Fleehart Thrown From Machine When Front Wheel Comes Off

Fred Fleehart, a young man who is employed by a local garage, suffered severe injuries Tuesday evening when the front wheel of his motorcycle came off while he was going home. The accident happened just west of the bridge over Hodge's branch in West Third street.

Fleehart was traveling a fast clip and when the front wheel let the front part of the machine down on the road, the rider was thrown a distance of approximately twenty feet. No bones were broken, but he sustained many serious cuts and bruises on his hands, arms and body. Fleehart lives about five miles west of Rushville.

DARE-DEVILS TO BE AT LEGION JUBILEE

Babcock is Only Man in World Who Combines Both Feats of Looping The Loop and Flying the Flume

TWO PERFORMANCES DAILY

Greensburg Jubilee to be Held Next Week Also Provides Many Other Big Free Attractions

Babcock, in his dare-devil act that was the feature of the Panama-Pacific Exposition at San Francisco in 1915, will be the principal attraction at the American Legion Jubilee to be held in Greensburg one week beginning August 23-28. Babcock is the only man in the world who combines both feats of looping the loop and flying the flume. He receives \$1,000 and all his expenses for two performances daily, afternoon and evening.

Many Rush Co. people who saw Babcock perform at the big fair on the coast will go to Greensburg during the Jubilee to see him repeat his death-defying feat.

Other big free attractions at the Jubilee are a high diving horse, acrobats and jugglers, a baby show, athletic contests, four brass bands, and daily stunts 1000 feet above the court house by John P. Porter in his Canadian training plane.

The Jubilee will have more shows and thrillers than Coney Island, it is said. A merry-go-round, and airplane swing, and the largest ferris wheel on the road, newly built, are among the rides.

The feature among the shows will be a home talent minstrel staged by Creath Loyd, wealthy commission man of Greensburg whose hobby has for years been amateur theatricals. Mr. Loyd, assisted by James Withers, another Greensburg man, of the professional stage, and a score of Legionnaires will put on the minstrel and as Mr. Loyd's fame as a producer of minstrels is known all over Indiana it is anticipated that he will turn away crowds daily from the huge sixty by one hundred foot tent that will house the show. A dozen shows of every kind and variety completes the show list.

More than 600 feet of displays by Indiana manufacturers and Decatur County merchants will cater to the attention of the Jubilee crowds.

Hundreds of dollars will be given in prizes, for small grains, farm and garden products, live stock judging and the like.

A prize of five dollars is offered for the most unique war relic displayed and prizes of ten, five and two dollars and a half for the best collection of relics of the World War.

Thursday, August the 26th, has been set aside by the American Legion as Rush county day although local citizens are cordially invited by their Decatur county neighbors to celebrate with them each day of next week.

WATER AND POWER RATE TO BE RAISED

Water and Light Committee and Supt. Mahin to Present New Schedule to Council

LIGHT RATE TO REMAIN SAME

Mayor's Suggestion to Prohibit Parking in One Block of Main Street Meets Objections

First steps were taken last night by the city council for the proposed increase in rates for electricity and water, when the matter was offered for discussion and left with the water and light committee and Superintendent A. T. Mahin to figure the cost of making electricity and for pumping water, and to prepare a new schedule of rates, to be presented at the next meeting of the councilmen. The new rates will first have to be approved by the state public service commission before they are put in effect.

It has been known for some time that the water and electric rates would be raised, as it was often the topic for discussion. The present rates are based on \$1.75 coal and 1914 labor prices, while today coal is costing from \$7 to \$9 a ton and labor has advanced over 30 percent. Councilman Manzy brought up the subject, emphasizing the fact that the plant could not continue to operate at the present rates. While the plant is not directly losing money now, nevertheless it is not making the money that it should, and a plant of this kind should be self-sustaining in every detail, councilmen think.

Superintendent Mahin reported that during the last two years, the self-sustaining plant had expended \$60,000 for improvements, and not a cent had been borrowed to do the work and carry on the expenses.

With coal costing as it does now, Supt. Mahin reported that some days the plant operated at a loss of \$60 or \$75, and that no plant could

Continued on Page Two

ELECTRIC VOLTAGE TO BE MADE STRONGER

A New High Tension Line Will be Run in Order to Make Better Lights in Residential Section

TWO FEED LINES NOW

Users of electricity in the residential portion of the city will be given more voltage and thus brighter lights will be available, upon completion of a new high tension line, the plans being made last night at the meeting of the city council.

At the present time there are only two main feed lines running from the electric plant. One of these comes up Second street to the business district and supply the territory lying south of the C. I. & W. railroad. The other main feed line goes north on Arthur street, and supplies the factories and residences in the north part of Rushville, all above the railroad.

The plan is to run a third line following the Pennsylvania railroad as far as Eleventh street, and feeding the residences from this line, thus increasing the voltage, and making the current stronger. Lights, which is badly needed and noticed by the users of electric iron, stoves and lights.

The cost for the new high tension line will be between \$1,500 and \$2,000, and Supt. Mahin expects to have it in operation as far north as Main street by winter. By rerouting the other two lines it will also increase the voltage in the business district and business district.

INDIANAPOLIS HOG PRICES ARE STEADY

Prices Range From \$14.40 to \$15.85 Today With Receipts 2,000 Less Than Yesterday

CATTLE ARE 25 CENTS LOWER

Indianapolis hog prices held steady today, sales ranging from \$14.40 to \$15.85 with receipts 2,000 less than yesterday. Cattle prices were 25 cents lower. The grain market was steady.

"Judy of Regues' Harbor"

Mary Miles Minter, star of the Realart Picture, "Judy of Regues' Harbor," which will be shown at the Princess Theatre tonight is afforded every opportunity to display her gifted ability and matured artistry in this well-known story, adapted from Grace Miller White's book. The athletic young star enters in the tense scenes and exciting situations with all the vim, vigor, nerve and vivacity of her girlhood. She is at home in many scenes calling upon her physical powers and histrionic ability. No expense has been spared to perfect every detail to produce a photoplay that will be hugely enjoyed.

A double feature bill will be offered the Princess patrons on Thursday and Friday of this week, when Bryant Washburn will be seen in his latest picture, "The Sins of St. Anthony," and a two-reel Mack-Sennett feature, "By Golly." Both pictures come highly recommended as being among the best pictures these stars have ever made, and neither need much comment for Rushville theater goers.

GOOD CROWD AT REVIVAL

The meeting conducted by the Rev. M. P. Bimmer at the Church of God, corner of Ninth and Oliver streets, was well attended last night, and the evangelistic campaign which was begun last night, will continue indefinitely. The preaching is the old fashioned kind, it is said and the public is cordially invited to attend the nightly services.

WATER AND POWER RATE TO BE PASSED

Continued from Page One
continue very long to operate at a loss.

The proposed increases will not affect the domestic consumer of electricity, but will apply only to power rates, which are said to be too low.

The water rates now are based on a minimum of \$1 a quarter, and over 50 percent of the water consumers pay the minimum price. This rate will probably be given a big boost, as the rates for water are much too low, according to the councilmen.

With the minimum of \$4 a year for water, it was also pointed out that the meters alone cost the city \$20, without the expense of installation, and that they would take over five years of service before the expense of the meters and installation would be paid for.

Mayor Irvin, stating that he wanted to give the councilmen something to think about, suggested that something must be done to relieve the congestion of traffic in Main street between Second and Third streets.

He introduced a section of an old ordinance in which the councilmen had the power to prohibit parking in any block or section of the street, and offered as a suggestion that parking be prohibited at all times in that business block.

The councilmen, with the exception of Mr. Scudder, did not take very heartily to the plan offered by the mayor. To stop parking in that block would cause a congestion some place else, and besides it was pointed out that there were no doubt some business men in that block who favored the idea of having machines parked in front of his store.

Mayor Irvin said, that grocery

stores and other places where a delivery was maintained, were handicapped in getting to their trucks. It was stated by one councilman that farmers objected more strenuously than the business men, because they could not get to the stores, but on the other hand, the majority of the business men would prefer to see Main Street crowded with machines, whether parked within the white lines or two or three abreast, than to see the main thoroughfare of the city lie bare without any parking.

Dr. J. B. Kinsinger, city health officer, reported to the council that he greatly appreciated the employment of Frank Havens, as health inspector, and that between 180 to

100 outside toilets had been cleaned under his supervision, and that 18 loads of manure had been hauled from the alleys of the city.

He stated that the cleanliness of the city was the cause for the healthful conditions existing here, and that during the last two years, not a single case of typhoid fever had developed in the city, one case being brought here from Cincinnati.

E. A. Frazee, living in North Main street was granted permission to gravel an alley beside his house, and the city school board was granted the permission to make a sewer connection through the paved street, in East Sixth, near the Graham Annex.

CARTHAGE, INDIANA

Foley's Honey and Tar

COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holmden, Neb., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years Foley's Honey and Tar has been used with satisfaction and success.

—Mrs. Walter Hoard and children will spend the week-end with her sister, Mrs. Omer Brown of near Gings.

—Mrs. W. P. Deckert and son William of Aurora, Ind., are visiting S. J. Ewbank and family, northeast of this city.

—Miss Bertha Carmichael has returned from a visit at Winona Lake with Mr. and Mrs. Warne Carmichael and family.

—Miss Hazel Garner of Muncie is visiting Mr. and Mrs. A. N. Newbold for a few days, at their home in West Eleventh street.

—Mrs. Ella Neutzenheizer went to Milroy today to spend a few days visiting Dr. and Mrs. Howard Thomas and to attend the chautauqua.

—Mrs. Fred Boxley and daughter Fay Louise went to Connersville yesterday evening to visit Mrs. Boxley's mother for a few days and to attend the Fayette county fair.

—Charles Norris and son, Ernest Norris of Des Moines, Iowa, formerly of this city, are visiting friends and relatives here and will remain for the Norris family reunion which will be held August 24.

—Mr. and Mrs. Newton Gruell and son of Cincinnati have been spending a few days with Mr. and Mrs. L. B. Osborn of North Harrison street and other friends. They will return home the first of next week.

—Mr. and Mrs. James Sharp and two children, Gladys and Glen of Stickney, South Dakota, spent the week-end with his cousin, A. F. Leach and family, who live north of Rushville. Mr. and Mrs. Leach and Mr. and Mrs. Sharp and their children motored to Cincinnati Sunday and visited the Zoo.

PROVES WORTH OF USING FERTILIZER

C. Dice of Fountain County Demonstrations Show That Fertilizer Gives Good Return on Crop

BEST YIELD IS 21 BUSHELS

Covington, Ind., Aug. 18—Courtney Dice, Troy Township, Fountain County has been carrying on fertilizer demonstrations on his farm north of Covington for several years. Last fall he used 135 pounds of 2-27 bone meal on his wheat leaving a check strip with no fertilizer and this spring 8 acres of the field was top-dressed with about 6 tons of manure.

At cutting time the check strip was not worth cutting. Where the fertilizer was used alone the wheat made 16 bushels per acre. The 8

acres that were top-dressed with manure made 21 bushels per acre. Mr. Dice gives some of the credit for this 5 bushel increase to the soy beans that were grown in the field the year before but he thinks the manure produced about 3½ or 4 bushels of the increase.

This is only one of the good demonstrations in the county showing the value of the fertilizer on wheat. Charles Ramser of Wabash Township had the same experience. Where he used no fertilizer the wheat was hardly worth cutting. Where about 200 pounds per acre was used the wheat will make about 15 bushels per acre and on the small strip where he doubled the amount of fertilizer the wheat will make from 5 to 10 bushels more than where only 200 pounds were used, according to L. E. McKinzie, County Agent, who co-operated with him in the demonstration.

No Excuse for Hessian Fly

There is practically no use for the Hessian fly doing the damage it does every year in Indiana, according to entomologists, if farmers will plant their wheat after the safe date in the fall. Every year more farmers are converted to this plan of preventing a common parasite which causes millions of dollars of loss to wheat growers annually.

Farmers are urged to yield to the suggestion which some have made to plant no wheat whatever, as this might cause serious curtailment of the wheat crop and is wholly unnecessary. The way to avoid repetition of the serious losses suffered during the season just past is to refrain from too early planting and observe other precautions recommended by the state and federal authorities. Planting according to schedule will, under normal weather conditions, result in practically complete protection from the Hessian fly, whose life history is so well known that the date of its appearance can be quite accurately forecast.

Those who have been accustomed to plant wheat early in the fall to avoid its being winter killed are assured that if they observe the recommendations of the authorities as to preparation of the seed bed, the use of good seed, and soil fertility, this risk will be reduced to a minimum. In years when the Hessian fly is abundant, early-sown wheat is practically certain to be seriously injured or to be a total loss whereas the dates for sowing wheat for the maximum yield and quality, regard-

less of the fly, come very near the recommended safe dates. It seems advisable, therefore, to postpone wheat sowing until these dates but to have everything in readiness to sow then, or as soon thereafter, as possible.

The dates recommended are based on years of investigation and have been determined by actual sowings at 3 and 5-day intervals during September and October for a series of years in various localities. Persons interested should secure from the county agent or Purdue university, one of the maps, showing the safe dates for the various tiers of counties. After September 30 is regarded as a safe date for planting in Rush county, according to data sent out by the United States department of agriculture, which has gathered these facts with the co-operation of Purdue.

It is realized that sowing dates sufficiently late to be absolutely fly-free would, in some cases, be the cause of considerable winter killing. Having given this fact due consideration, the adjusted date for Rush county is the best sowing dates to avoid both Hessian fly and winter killing. In some seasons of heavy infestations when climatic conditions are abnormal, these dates will be too early. The fall of 1919 was just such a season. In such cases in the future provision has been made to determine the number of days the fly is expected to be a menace after the regular dates as indicated, and this information will be given out by the stations in the various states far enough in advance for the farmers in every locality affected to make the necessary changes in their plans in order to protect their crop.

When the Hessian fly has once become established in a crop of wheat, there being no remedy that will save it, all effort should be made to protect the next year's crop. Any practice which will reduce the number of flies that emerge in the fall, such as the plowing under of infested stubble in summer or early fall should be adopted where such measures do not interfere so seriously with rotations as to cause disproportionate losses. If volunteer wheat starts, it must be killed by disking, plowing under, or otherwise, before a brood has had time to develop in it. Prepare a good seed bed, use good seed, and make sure that the soil is sufficiently fertile to furnish all the proper nourishment that the young wheat plants can use. Last and most important, postpone sowing until the safe date. It should be remembered that farmers must cooperate in this matter. A single field of early-sown wheat will often furnish enough flies to infest an entire locality the following spring, agricultural experts advise.

The poor man has reason to be joyful in his adversity. He doesn't have to employ an attorney to keep him out of jail for pulling crooked deals in the realms of high finance.

The man with money has troubles of his own. He has to be forever sidestepping to prevent some other fellow from euchreing him out of it.

Every man owes a duty to his country. Some pay, and others want the country to pay them.

Whenever we hear a fellow talking about his brains we wonder just how badly scrambled they are.

The pike preceded the bayonet for infantry use.

GOITRE

Caused Voice to Fail for Indianapolis Lady. Relieved By External Remedy

Note: It would be illegal to publish these statements if they were not true. Mrs. Fred Mass, 422 Christian St., Indianapolis, Ind., says in her own home paper, the Indianapolis Star: "I have used one bottle of Sorbol Quadruple and my goitre is almost gone. I had lost the use of my voice for singing, but that is near normal again. It relieved me of having horrible dreams. I cannot say enough for Sorbol Quadruple. A friend in the next block has had even more wonderful results than I. I will be glad to talk or write to any one about it."

Sorbol Quadruple comes in small bottles containing enough for most cases. Will not stain or irritate. Does not interfere with regular work. Leaves parts in healthy, normal condition. Easy to use. Requires 10 minutes daily.

It's getting so now that men in the audience weep when they see one of those movies of men athirst in the desert.

NEW HAVEN (CONN) TIMES LEADER

Sap and Salt

By BERT MOSES.

The longer the lawsuit, the fatter the fee.

The louder a speaker talks, the less he is able to think.

We all come into life the same way, but there are a thousand ways to go out.

Hez Heck says: "Yellow is a bad color for both a man's character and his teeth."

The sad part about being born is that you have nothing to say about the selection of your parents.

Women, of course, were intended for many good purposes, but one of these was not to be understood.

Digest of New Laws Passed
By Special State Legislature

11. Registration of Voters.—The act of 1919 providing for the registration of voters was so amended as to provide that sessions of the registration board shall continue from 8 o'clock a. m. to 9 o'clock p. m.; and the provision relative to registration by absent voters is so amended as to authorize an absent voter to register by mail whether it is convenient for him to appear before the board or not. Provision is also made for the re-registration of persons who register in the wrong precinct at the September session or who move after such September registration.

Gives Advice To Indiana Citizens

Urges them to profit by his experience. Says he was nervous, restless at night; very bilious with spots dancing before his eyes. Had little boils all over his body, but Dreoce has wiped away all of these troubles.

"I wish every good citizen of Indiana could profit by my experience with the greatest medicine I ever took which is Dreoce," said Mr. Oscar Campbell, the widely known merchant and farmer of Wheeling, Delaware Co., Ind.

"I used to have spots dancing before my eyes; dizzy spells; was so nervous I couldn't sleep sound and my blood was not in good condition, for small boils would break out all over my body. My entire system was weak and rundown when I started taking Dreoce, but that medicine seemed to go right to the bottom of my troubles and wipe them out.

"I've taken two bottles of Dreoce and my nerves are steady as a clock; I sleep sound every night; haven't had a dizzy spell now in weeks and the spots have disappeared before my eyes. Dreoce has cleaned my blood for the boils are all gone and my skin is as smooth as a baby. I feel great and give all the praise to Dreoce."

All druggists now sell Dreoce and it is being especially introduced in Rushville by F. B. Johnson & Co.—(Advt.)

INDIANA MINE FILES AN INJUNCTION SUIT

Attacks Constitutionality for Coal Regulation in Indiana on Grounds That It Is Discriminating

UNFAIR LICENSE IS CAUSE.

Indianapolis, Ind., Aug. 18.—Attacking the constitutionality of the law for regulation of the coal industry in Indiana on the ground that it is discriminating, the American Mining Company of Brazil, Ind., asked the federal court here for an injunction to restrain state officials from enforcing the law. Governor Goodrich, State Auditor Klaus and Jesse Eschbach, chief examiner of the state board of accounts, were named in the suit for an injunction. All are members of the state board of accounts which was named by the recent special legislature as the administering body.

Five sections of the act are attacked by the coal company. They are 7, 8, 9, 10 and 13. The company charges that each of these discriminate in violation of the federal constitution.

The suit was based on the ground that the act provides for the licensing of Indiana coal producers but that no provision is made for the licensing of the Illinois producers, which the suit said is legislation in favor of the Illinois operators and therefore directly opposite to the interstate commerce law and the federal constitution.

The suit alleges that 43 percent of the coal used in Indiana is mined in other states.

AUG. 28 WILL BE "INDIANA DAY"

Republicans of State Will Journey in Big Style to Marion, U. to Greet Senator Harding

3 SPECIAL TRAINS EXPECTED

Engines Will All be Equipped With Different Whistles and Banners Will Adorn the Trains

Indianapolis, Ind., Aug. 18.—Indiana folks who go to Marion with the special delegation on August 28th to greet Senator Harding, are planning to make this a day of great demonstration.

In the first place each of the locomotives drawing the three or more sections of the special train that will leave Indianapolis will have a special whistle. It hasn't been let out as to just what kind of a whistle it will be, but Richard Lewther, secretary of the Indianapolis Harding-for-President Club, which is making the arrangements, says there will be special whistles.

The locomotives will be decorated with flags and bunting, and banners with four-foot letters proclaiming Harding-for-President, and other good Republican slogans, will be pasted to the sides of every passenger car.

When the crowd arrives in Marion all plans will be ready for making the affair an "Indiana Day". At least 3,000 are expected to be on hand, among them the leading Republicans of this state. Senator Watson, Senator New, Warren T. McCray and State Chairman E. M. Wasmuth will be among those making the trip.

Republicans of the tenth district will have their own special train. They will pick up other delegations at South Bend, Fort Wayne and way points. The tenth district special will leave over the Erie at Hammond, at 10 o'clock on the night of August 27th, and will arrive in Marion early the next morning.

A special train in three sections will run to Marion from Indianapolis. All Republicans in the state are invited to go. Elias J. Jacoby, President of the Indianapolis Harding Club, is making arrangements for the trip.

G. O. P. WOMEN PLAN ACTIVE CAMPAIGN

Executive and State Committee Outlines Work for Fall at Meeting Today

REPORTS FROM DISTRICTS

Indianapolis, Ind., Aug. 18.—Preparations for a vigorous campaign among Republican women in Indiana were made here today at a meeting of the Republican women's executive committee and the women's state committee. The meeting was held in Republican state headquarters.

Reports of the progress of the work in each district were made by the women district chairman and all declared that favorable results are being obtained in the organization work. Another phase of the present work is calculated to bring out the full voting strength in the registration. Meetings are being held in all communities for the purpose of explaining the registration laws and emphasizing the necessity of registering in order to vote in the fall.

Talks were made at the meeting by E. M. Wasmuth, state chairman; Mrs. Joseph B. Kealing, chairman of the executive committee; Fred E. Schortemeier, secretary of the state committee; Miss Dorothy Cunningham, director of the women's bureau; Fred Sims, and Miss Katherine Smith, of the women's bureau.

BATESVILLE CANCELS

The Batesville baseball club cancelled the game with the Tail Lights which was scheduled for Sunday, and Manager Conway today was busy getting in communication with other teams in this part of the state in an attempt to secure a good attraction for the game Sunday. The Batesville team underwent a change in management, which was given as the cause for the cancelling of the game.

HERE IS YOUR CHANCE

We are Putting in a Saw Mill on our farm 2 miles east of Gings to cut out about 35 acres timber. Will be in operation only very short time, now is your chance to get your timber or lumber for that barn, double corn crib, corn crib roofs or floors, stable flooring, fencing, gravel beds etc.

As we all know it is a hard matter to get this kind of material so do not delay letting us know your wants at once as we are only going to be in business a very short time. For further information and price, See or call either

\$2.00 for YOUR OLD SHOES — THIS WEEK ONLY —

This rather sensational offer should attract scores of men and women to our store—some who are dubious will soon find that Walk-Over advertising is indeed "truth in advertising"—others will come because they know Walk-Over quality.

Cash in Your OLD Shoes

Here is our proposition. Wear your old shoes into our store—buy a new pair of Walk-Overs—leave your old shoes here and walk out wearing your purchase. \$2.00 will be refunded on the purchase price.

This offer is unconditional. Let your old shoes be as worn as you wish—no matter what make—the offer is good to you. We want you to know, by actually wearing them, that Walk-Over Shoes represent the best value in shoedom today at their price. Therefore this offer—equally good on Men's and Women's Shoes, Oxfords or Pumps. This shoe advertised at the special price today is \$14—but your credit brings that down to \$12—a wonderful buy. Or you may choose from our many other styles.

The Ormond Custom grade Cherry Tan Calf

Price \$14.00
Credit for Your Old Shoes \$2.00
Net Cost to You \$12.00

WANTED
Students, age 19 or over, with Eighth grade education or better for Power Laundry Course. A cooperative system of education; the student earns while he learns. Fitted after two years training for a job at a fair salary in profitable and established trade with excellent opportunity for rapid advancement. First-class living conditions while training with a wage that is partly self-supporting. Address Ohio Mechanics Institute, Cincinnati, Ohio.

The Tarry-A-While Club will be entertained Friday afternoon by Miss Elizabeth Hackleman, at her home in North Morgan street and all of the members are urged to be present.

Mrs. Mary L. Neutzenhelzer was hostess for the Tuesday Afternoon Bridge club yesterday afternoon at her home in West Third street. Light refreshments were served at the conclusion of the playing.

The members of the Woman's Missionary society of the Sexton Christian church, entertained their families at the home of Mr. and Mrs. Harry Land north of the city Tuesday evening. The following program was given:

Scripture and reading, Mrs. Kiser; Bible study, Mrs. Earl Grubbs; prayer, Mrs. Ode Winkler; "The New Emphasis on Trained Leadership," Mrs. Jess Winkler; "The Fulfillment of Life," Mrs. Orville Porter; Hidden answers, Georgia Quirk; Bible question, Mrs. Agnes Gardner; Mrs. Carroll Clifton gave a humorous reading.

The Purdue Alumni Association of Bush county held an all day picnic and outing at Lake McCoy near Greensburg yesterday. Former students and their families and friends were in attendance and enjoyed the day in fishing, boating and bathing. A basket dinner was served at noon. The following guests were present: Mr. and Mrs. Ralph Miles, Donald Alexander, Mr. and Mrs. Berl Hinchman, Albert Smullen, Mr. and Mrs. Russell Baker, Mr. and Mrs. Eli Martin, Mr. and Mrs. D. D. Ball, Mr. and Mrs. Lowell Norris, Mr. and Mrs. Walter Norris, Mr. and Mrs. Floyd Norris, Mr. and Mrs. Hubert Innis and Clyde Henley. The families and several friends also were in the picnic party.

Many persons from a distance attended the annual reunion of the Maury family which was held at the city park Tuesday. A delicious dinner was enjoyed at noon and most of the afternoon was devoted to a program consisting of music, readings and short talks. J. R. Johnston of Pittsburg, who was invited to the reunion, was unable to be present, but he responded with flowers and souvenirs for every person attending the reunion.

At the business session it was decided to hold the reunion at the same place next year, but the date was changed to a week later. Thomas H. Parry of Indianapolis was elected president of the reunion association; David Wilson of Shelbyville, vice-president; Miss Lola Parsons of Indianapolis, secretary and Ralph Payne of this city, treasurer.

Among the guests from out of the county were Mrs. Sarah Eberts and John M. Maury of Jeffersonville; Mr. and Mrs. Albert Hall, Aquilla Maury and Charles G. Maury of Fowler, Ind.; Wilford Maury and Will Maury of Berkeley, California; Mr. and Mrs. Thomas H. Parry, Miss Parsons, Mrs. Collins and George Maury of Indianapolis; Mr. and Mrs. Major and David Wilson of Shelbyville, and Mr. and Mrs. George DeHority of Elwood.

WOMEN LOVE LIFE AFTER THIRTY-FIVE

(By United Press.)

Londo, (By Mail)—Cheer up, women! The first thirty-five years of life, are the worst.

According to Dr. Josiah Oldfield, who has made a life long study of women and their woes, women are happiest and at their best from the age of thirty-five onwards.

"The popular idea that the young woman is queen of the earth and has the world at her feet is a fallacy," Dr. Oldfield confided to a gathering of medical legal authorities. "This discovery is based not on mere theory, but on the comparative number of men and women suicides after the age of thirty-five.

"Life undoubtedly becomes more pleasant and attractive to women after they have reached this age. More young women commit suicide between the ages of fifteen and thirty-five than young men, but once thirty-five is attained the position is entirely reversed.

"Men suicides are largely in the majority."

REMOVED TO HIS HOME

James Haywood, age twelve years who underwent an operation for appendicitis at the Dr. Frank H. Green hospital Tuesday of last week has been removed to his home and is recovering nicely.

BETTER AFTER OPERATION

Albert S. Land of Brookville, who was suffering with a serious attack of appendicitis and was operated on at the Dr. Frank H. Green hospital Sunday, is much improved and will recover, it was stated today.

DR. JOHN GREEN IMPROVES

Dr. John Green of Manilla, who has been seriously sick following an operation for appendicitis, a few weeks ago, is showing much improvement, it was stated today by the attending physician.

DEFECTIVE FLUE THE CAUSE

The fire department was called to the residence of James Yazel, 1177 West Market street, yesterday afternoon about 5:30 o'clock. A defective flue caused a loss of \$5.00 to the roof of the house. The alarm was telephoned into the fire station.

ACCOUNT SUIT FILED

Wylie McKee a merchant of Milroy has filed suit in circuit court against Samuel H. Colter on an account, demanding \$125 judgment. The complaint is based on an account of goods purchased by Colter from the plaintiff, which he owes McKee. The amount asked for in the complaint.

Tennessee Ratificationists Win After Two Days Debate

Continued from Page One
occasion of the Seneca Falls convention.

The most memorable incident in the career of Miss Anthony, whose unassuming character endeared her to thousands of American women as well as men, occurred in 1872 when she was arrested at her home in Rochester, N. Y., on a federal warrant charging her with illegally voting in the congressional election of that year. With her thirteen other suffrage pioneers were hailed to court, as were four election judges and clerks who accepted the women's ballots.

The trial before Judge Hunt created a national sensation. Dismissing the cases before him, Judge Hunt after a speedy hearing took the case away from the jury and fined Miss Anthony \$100 and costs. The defendant's plea was that she had voted under the Fourteenth amendment to the Constitution which gave the vote to all citizens without respect to "race, color or previous condition of servitude."

Miss Anthony died in 1906, her eighty-sixth year, at Rochester.

The proposed amendment was finally adopted by Congress on June 4, 1919. The first state to ratify was Illinois, whose legislature accepted the amendment on June 10, 1919. Ratifications of other states were made in the following order:

Wisconsin, June 10; Michigan, June 10; Kansas, June 16; New York, June 16; Ohio, June 16; Pennsylvania, June 24; Massachusetts, June 25; Texas, June 28; Iowa, July 2; Missouri, July 3; Arkansas, July 28; Montana, July 30; Nebraska, July 31; Minnesota, September 8; New Hampshire, September 10; Utah, September 30; California, November 1; Maine, November 5; North Dakota, December 1; South Dakota, December 4; Colorado, December 5; Rhode Island, January 6, 1920; Kentucky, January 6; Oregon, January 12; Indiana, January 16; Wyoming, January 27; Nevada, February 7; New Jersey, February 10; Idaho, February 11; Arizona, February 12; New Mexico, February 19; Oklahoma, February 23; Tennessee, August 18.

Wyoming and Utah are the only states in which there has been no suffrage fight. Equal suffrage for both sexes was included in the constitutions of these states when they were admitted to the Union.

The effects of the work national and state women leaders have done for equal suffrage prior to the enactment of the federal amendment allowing women full share in elections is shown in the fact that twenty-nine states had already adopted full, presidential or primary suffrage. In the remaining 19 states there was either partial suffrage (usually in school elections) or none at all.

A. O. HUNTER of Cincinnati, Ohio, who says Tanlac has certainly proven its worth in both his own and his wife's case. He wasn't able to work when he began taking it.

"Last fall I had the 'Flu' and it left me in a very weak and run down condition with no appetite at all and such a weak stomach that even the smell of cooking made me sick. I was awfully nervous and night after night I couldn't sleep to do any good. I would get up in the mornings tired and worn out and was so short of breath that a half hour's job would tire me as much as a whole day's work used to. In fact, I finally had to give up a good job.

When I first started on Tanlac I was working for the Goodyear Rubber Co., in Akron, Ohio. I decided that anything that was being talked about so much was at least worth an honest trial. It worked like a charm in my case. It helped me right from the start and by the time I had taken my third bottle all of my troubles were gone and I found myself well and strong again.

"While in Akron my wife got so she couldn't eat. She lost weight and got so very pale. Tanlac was doing me so much good I got her to try it and after taking two bottles, she is looking fine again. Her appetite is just splendid, and she looks like a different person. It certainly has proven its worth to both of us and has come up to every word I have read and heard about it."

The above statement was made by A. O. Hunter, 106 W. 7th St., Cincinnati, Ohio, a well known mechanic now in the employ of the Cincinnati Abattoir Co.

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McCarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2—Adv.

CUT WORMS ARE TOMATO MENACE AT FOREST RESERVE

Purdue Expert Says That Statistics Show 25 Percent of Tomato Plants Are Affected

IS VERY EASILY CONTROLLED

People Are Urged to Follow Same Methods as Used When Army Worm Attacks Corn Fields

Numerous reports of serious cut worm damage in central Indiana have been received at Purdue University. An investigation in Grant, Tipton, and Clinton counties made by the Horticultural Department and W. H. Larimer, Government Entomologist, showed as high as 25% of the tomato fruits now set affected by the variegated cut worm.

These worms are attacking gardens, sugar beets, flowers and almost all green crops, but are serious so far as reports indicate only in gardens and a few tomato fields.

Fortunately this insect is easily controlled by the same remedy as applied to the army worm during recent years.

On a field scale thoroughly mix 50 pounds of bran with 2 pounds of Paris green, crude or white arsenic. Dilute 1 gallon of cheap "Black Strap" or other grade molasses with 4 to 6 gallons of water. Wet the bran with the dilute molasses poison mixture until a handful of the mash, when squeezed tightly, will just show water between the fingers.

Broadcast the bait as thinly as possible over the infested fields. Seven to ten pounds of the wet mash should cover one acre, 50 pounds of bran should cover ten acres.

For small gardens use 1 pound of bran, 1 oz. of paris green, crude or white arsenic, 1 cup molasses and 1 pt. of water.

The arsenicals used are deadly poison and extreme care should be taken to prevent any domestic animals, including chickens, from eating the bait before it is applied. When the mash is scattered thinly as directed, there will be no danger whatever.

OPEN HOUSE AUG. 19 AT FOREST RESERVE

Every Hoosier Interested in Reforestation Invited to Visit Reserve and Note The Progress

C. C. DEAM TO CONDUCT TOURS

Forest Reserve at Henryville Consists of 2,000 Acres and Was Purchased by State in 1903.

The state conservation department will keep open house Aug. 19 at the Clark county state forest reserve, one mile north of Henryville. The date will be known as visitors' day and a cordial invitation is extended to every Hoosier, and especially those interested in reforestation, to visit the reserve and note the progress made since this woodland tract came into possession of the state more than a decade ago.

John G. Brown, president of the Indiana Federation of Farmers' Associations, and other prominent men are to appear on the program to begin at 1:40 p. m. at the administration building. A representative from Purdue University has promised to be on hand to discuss the attitude of the experiment station on forestry; D. V. Mann, Clark county farm agent, will tell of his work as a factor in helping solve the forestry problem, and Richard Lieber, director of the department of conservation will note actual results accomplished in forestry in Indiana and outline a future policy in forestry in the state. A speaker to be selected, will discuss the subject of forestry in connection with the public schools, and the vital need of increased forest production because of the alarming paper shortage and dwindling supply of woods for various and industrial uses.

Charles C. Deam, state forester, and assistants will be present to personally conduct tours through the state forest and point out and explain the many points of interest.

The state forest reserve is located one mile north of Henryville and can be reached by rail over the Pennsylvania railroad by going to Henryville or by traction over the Interstate line. All traction cars will stop at the reserve on visitors' day. Good auto roads connect with the reserve.

The forest reserve consists of 2,000 acres and was purchased by the state in 1903 for \$16,000. The administration building was completed in 1906. Since the spring of 1904, when some of the forest plantings were started, the state has steadily progressed with its experiments and on this 2,000-acre preserve is conducting the most extensive investigation of growing hardwoods ever conducted in the United States.

Today visitors at the reserve will see 175 acres of cleared land that has been planted to forest with 23 different kinds of trees, some of which are now 6 inches in diameter. There is a park of seven acres which contains 82 species of trees and 63 varieties of shrubs. Experiments extending through more than a decade of years prove conclusively that trees planted 5x6 and 6x6 feet apart do best. The former will permit raising 1760 trees per acre and the latter 1200 per acre. According to Mr. Deam, plantings of black locust made 6x6 have proved most satisfactory.

Many splendid scenic effects are obtained at the reserve. The view from the "lookout on top of the knobs" is one of the grandest in Indiana, and on a clear day, Louisville, Ky., 20 miles distant, appears in the vista. A panorama of the 2,000 acre woodland is unsurpassed.

Visitors should take their lunch, although by engaging it a day ahead dinner may be obtained at the hotel in Henryville, at 75c a plate. Coffee will be served free at the reserve.

Championship Heavyweight
Baby of Indiana at Berne

Berne, Ind., Aug. 18.—The little town of thirteen hundred people claims the champion heavyweight baby of Indian.

Laurese Meyers is less than a year old, but weighs forty pounds. She is three feet, six inches high.

According to the bureau of birth registration, Laurese is the largest child for her age ever recorded in Indiana. Mr. and Mrs. Tony Meyers, the parents, say Laurese has relatives in California, Iowa, Minnesota, Wisconsin, Colorado, Missouri, Michigan, Ohio, and New York.

Besides these, other relatives live in Germany, Switzerland, Holland, and Poland.

Grove's Iron Tonic Syrup

Pale Children Need Iron

Iron in Syrup form is more readily digested and assimilated than Iron Pills or Iron Tablets, and naturally you get quicker results. The Iron in GROVE'S IRON TONIC SYRUP is digested as soon as it is swallowed and, therefore, is promptly assimilated. You can soon feel its Strengthening, Invigorating Effect.

The Syrup is flavored and children love to take it. Contains no Nux-Vomica or other poisonous drugs, therefore, it can be given to The Babe, The Child, The Mother and The Grandmother with perfect safety.

Grove's Iron Tonic Syrup

Price 60 Cents.

E. W. Grove

Look for this signature on the package.

Do They Look Sick?

With several County Fairs in progress and the Chautauqua over, your best garments may look a bit shabby, mussed and soiled. If it wasn't for an establishment like this, your clothes would depreciate 100 per cent from hard usage of this sort. Send them to us, and let us make them like new. Our process adds life and wear to any garment, and can scarcely be told from new.

MILLER & KEMPLE, Auctioneers.

J. G. BROWN APPOINTED TO AN IMPORTANT POST

Head of Farmers' Association is Chosen as One of Committee on National Live Stock Affairs

TO REDUCE AVOIDABLE LOSSES

Chicago, Aug. 18.—John G. Brown, of Monon, Indiana, president of the Indiana Federation of Farmers' Associations, has been appointed a member of the Advisory Committee of the nation-wide conference to reduce avoidable losses on live stock. Losses of this sort not only amount to many millions of dollars yearly but also reduce the nation's meat supply by millions of pounds annually.

The appointment was announced here today when Everett C. Brown, President of the National Live Stock Exchange and Chairman of the conference, made public the constituency of committees representing producers, live stock shipping associations, railroads, the Institute of American Meat Packers, live stock exchanges and stock yards throughout the United States.

It is estimated that bruises alone last year caused monetary losses on live stock and meat approaching \$15,000,000. A vigorous campaign will be conducted in every section of the country to eliminate avoidable losses by proper handling and shipping of meat animals.

NUXATED IRON
HELPS MAKE STRONG, STURDY MEN AND HEALTHY BEAUTIFUL WOMEN
"Iron is red blood food and in my experience I have found no better means of building up the red blood corpuscles and helping to give increased power to the blood than Nuxated Iron."
Dr. E. B. Wall, formerly Medical Director in the U. S. Army, and a Medical Examiner.

Mobile Co., Alabama

Down where one is not troubled with catarrh, colds or rheumatism. The climate is simply ideal. No sudden changes. Good location for a dairy or stock farm. Crops grown are corn, cane, Irish and sweet potatoes, beans, peas, etc. I have 1,396 acres improved and unimproved farms of 40 acres up within 15 miles of Mobile that I will sell on reasonable terms.

B. E. Marshall

729 Lemcke Bldg., Indianapolis, Ind. Main 836

BRITISH HAVE SOME HOPE AT OLYMPICS

Team Laboring Under Predictions of Sportsmen That World's Athletic Title Will Not go to England

CONFIDENCE IN HIGH JUMP

Boxing is Another Branch in Which There is an Excellent Chance For Great Britain

(By United Press.)
London. (By Mail).—Great Britain's Olympic team, though preparing energetically for the test at Antwerp next month, is laboring at present under the somewhat flattening predictions of sportsmen that wherever the world's athletic title goes, it will not be to England.

At present, some sporting writers are even suggesting that the personnel of the team be cut to a minimum because of the supposedly superior chances of the United States and particularly of Sweden.

For the field events, in which interest both in England and the United States is expected to center, there is but one event in which there is real confidence—the high jump. In this Howard Baker, who recently jumped 6 feet 3½ and can do better, is expected to show up well along with J. Carroll, the Irish jumper. Although at the American trials the winning mark was six feet four, it is thought by English athletes that one of their two star jumpers may better this—granting it's the best.

C. W. Paddock's—University of California—9 4/5 seconds in the 100-yards has somewhat dampened hopes in this line, as in the British trials the best the champion, H. F. Edward, could do was ten seconds. But with W. A. Hill, former champion sprinter, to accompany him, even the pessimists are hoping for the best.

Edward's time for the 220 is 21 3/5 seconds—only a fifth of a second behind the best American time. And there is always the hope that a good money-finisher will surpass his best effort in a pinch.

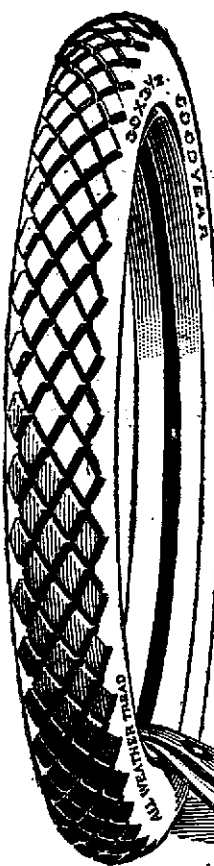

G. B. Rudd, a native Englishman is the best around there parts in the quarter and the half. But unfortunately he will run for South Africa. The British team will have instead G. M. Butler of Cambridge from whom Rudd took the championship in the quarter. H. M. Abrahams, who has been running well, also may finish in the money in the 220 or 440. There is fear, though that Abrahams, a member of the Polytechnic team, will not stick to the sprints but branches out into the long jump and hop-step-and-jump.

Boxing is one branch in which

there is thought to be an excellent chance for the Britishers. The team includes three Scotsmen—W. Cuthbertson, G. McKenzie and J. Cater

will uphold the flyweight, bantam of the boxing team is its trainers—and feather classes respectively. Jimmy Driscoll, Joe Bowker and Fred Grace and J. Gilmour will be Tancy Lee, all men who know the lightweights. The greatest asset game.

Small Cars—and the Declining Cost of Tire Mileage

You are aware, of course, that during the last ten years, Goodyear has been able steadily to increase the amount of mileage built into its tires.

Do you realize, also, that this increase has been accomplished without extra cost to the user—that Goodyear Tires are priced no higher today than in 1910?

In no tire in the Goodyear line is the declining cost of mileage more evident than in the present 30 x 3-, 30 x 3½- and 31 x 4-inch size Goodyear Tires made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get the exceptional worth and endurance that Goodyear builds into them.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread **\$2350**

30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread **\$2150**

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3½ size, **\$450** in waterproof bag
